

TechBehemoths 2024 Awards: Voting for The Best Tech Service Providers in 56 countries is Open

TechBehemoths announces the 4th edition of its annual awards, recognizing companies from 56 countries for their trust, transparency, and performance in tech.

GERMANY, November 19, 2024

/EINPresswire.com/ -- Nominees from around the world are competing, with voting now open.

13 new countries joined the competition for the [2024](#)

[TechBehemoths Awards](#), bringing the

total number of participating countries to 56. These countries range from France and Indonesia to Estonia and Chile, including major tech hubs like the United States and the United Kingdom, as well as rapidly growing tech centers like Vietnam and Kenya.

“

This year’s awards offer again a unique opportunity for tech companies to showcase their achievements on a global stage with the support of their networks.”

*Sobieski Founder and CEO of
TechBehemoths*

The awards recognize companies across 20 different services, reflecting the diverse needs and contributions within the industry. These services range from web development and mobile app creation to cybersecurity and AR/VR development.

For the second year in a row, awards follow a two-phase process:

1. Pre-Nomination Phase (October 20 - November 10): During this initial phase, companies on TechBehemoths with a profile strength below "Above Average" had the

chance to improve their profiles to qualify as nominees.

2. Voting Phase (November 11 - December 15): In the second phase, qualified companies known as nominees, are invited to gather votes from clients, partners, and supporters to win the TechBehemoths 2024 Awards in their country. Each nominee can compete in up to three

categories.

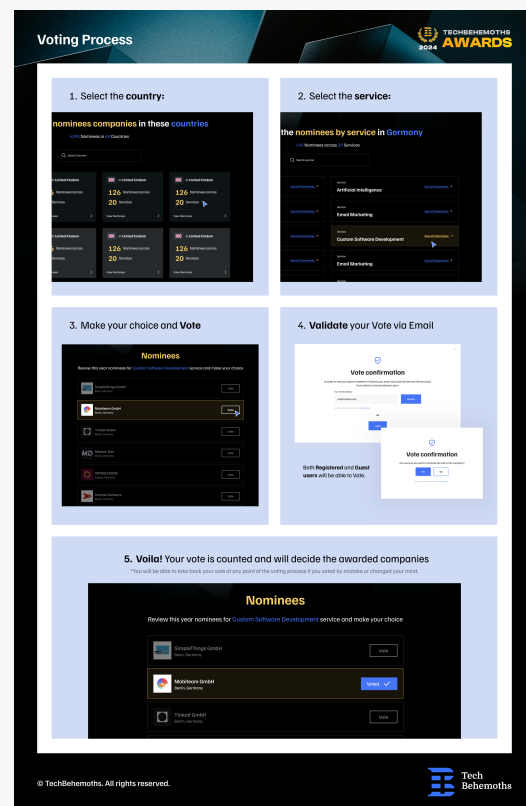

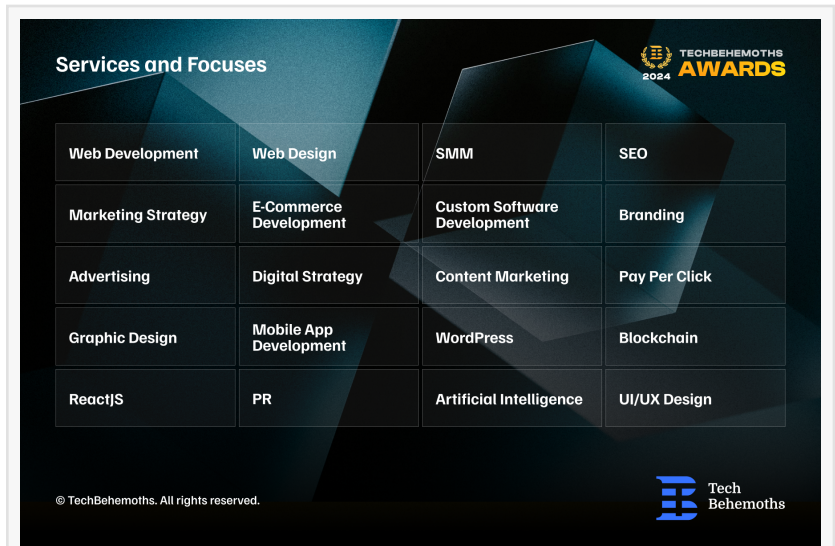

Nominees are evaluated based on criteria that include:

- Service expertise
 - Customer reviews
 - Business portfolio
 - Strength of business profile
 - Location
- and several other metrics.

The rating is determined by evaluating three business viability, technical performance, and reliability.

Voting is open to everyone, allowing audiences around the world to recognize their favorite tech companies, regardless of their location. Companies can use TechBehemoths voting widgets to gather support, sharing their voting links on social media and with clients to maximize votes. Each vote will be verified via email to ensure a fair and credible voting process.

Winners will be announced by December 17, 2024, bringing much-deserved attention to tech companies of all sizes—both industry leaders and up-and-coming players.

“Since the first awards in 2021, we’ve aimed to support the tech industry by providing recognition and visibility to companies that excel in driving tech forward. This year’s awards offer again a unique opportunity for tech companies to showcase their achievements on a global stage with the support of their networks” said Sobieski Founder and CEO of TechBehemoths.

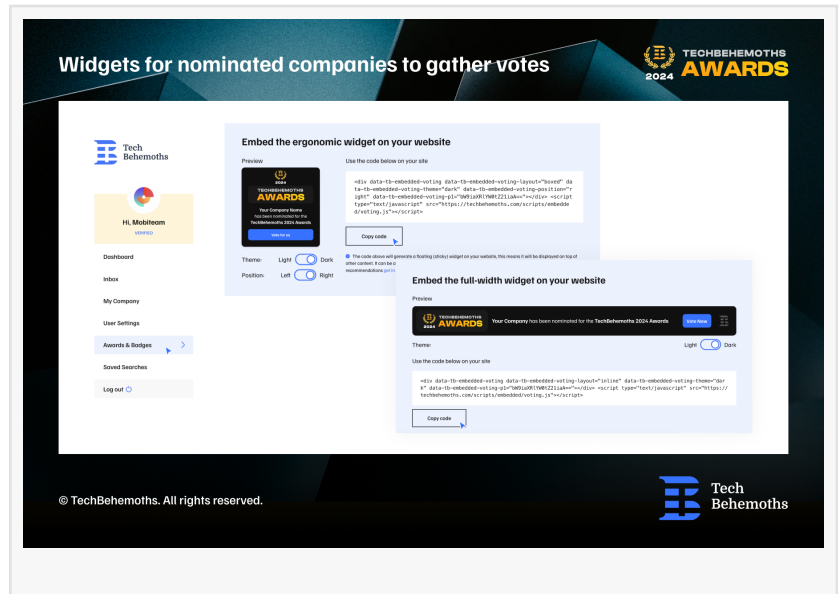

TechBehemoths invites media outlets to help local communities and businesses choose the best IT vendors in their countries. This awards event happens yearly, and the next winners will be announced at the end of 2025.
