On the basis of product type, the market is categorized into standard ducts, micro ducts, pathways, and others. The pathways segment held the lion’s share in 2018, accounting for more than one-third of the total market. However, the micro ducts segment is anticipated to portray the highest CAGR of 10.5% during the forecast period.

Based on industrial vertical, the market is divided into telecom, power, transport, building & infrastructure, and others. The transport segment is projected to manifest the highest CAGR of 10.7% during the study period. However, the telecom sector held the largest share in 2018, accounting for more than one-fourth of the market.

Rise in demand in developing countries and growth of the telecommunication sectors in developing regions drive the growth of the global FTTx pipes market. On the contrary, volatile oil prices hinder the market growth. However, the integration in power & energy infrastructure would open new opportunities in the coming future.
