KUALA LUMPUR, WILAYAH PERSEKUTUAN, MALAYSIA, November 20, 2024 /EINPresswire.com/ -- On 14th November 2024, [Mandrill Tech](#),

[ServeDeck](#) Innovation, and Enviro Group Asia announced a strategic partnership to revolutionise facility management and sustainability. The MoU was signed by Davent Low, CEO of

Mandrill Tech, Suhendra Arianto, CEO of ServeDeck Innovation and YBr. Tuan Ahmad Fuad Che Mi, Group COO of Enviro Group Asia and witnessed by YBhg Datuk Nitesh Malani, Chairman of Yayasan Usahawan Malaysia and Founder of the SEBA Awards. By combining advanced [AI](#), IoT,

and digital facility management technologies, the three companies aim to create a powerful solution that enhances operational efficiency, improves indoor air quality, and elevates workplace safety and health.

“

By joining forces, we are creating a powerful synergy that will transform the way facilities are managed”

The collaboration leverages the strengths of each company to deliver a comprehensive solution. Enviro Group Asia's cutting-edge air quality monitoring sensors provide real-time data on indoor air quality parameters, such as particulate matter, volatile organic compounds (VOCs), and

carbon dioxide. This data is seamlessly integrated into ServeDeck's innovative facility management platform, enabling automated data collection and analysis. Mandrill Tech's powerful AI-driven Lestar ESG data platform further enhances the platform, providing actionable insights to optimize building operations and reduce environmental impact.

“By joining forces, we are creating a powerful synergy that will transform the way facilities are managed,” said Davent Low, CEO of Mandrill Tech. “Our AI-driven Lestar platform, combined with Enviro’s advanced sensors and ServeDeck’s digital facility management capabilities, will empower organizations to make data-driven decisions that improve operational efficiency, reduce costs, and enhance sustainability.”

“Our leading-edge smart facility management platform is designed to simplify complex building operations, providing a solid and extensible platform for IoT connectivity, achieving a truly smart building solution,” said Suhendra Arianto, CEO of ServeDeck. “By integrating Enviro’s air quality sensors and Mandrill’s AI insights, we can provide our customers with a comprehensive solution that addresses their evolving needs and helps them achieve their sustainability goals.”

“Ensuring clean and healthy indoor air is essential for employee well-being and productivity,” said YBrS. Tuan Ahmad Fuad Che Mi, Group COO of Enviro Group Asia. “Our advanced air quality monitoring sensors, combined with the power of Mandrill’s AI and ServeDeck’s platform, will enable organisations to create healthier and more sustainable work environments.”

This strategic partnership is poised to revolutionise facility management and sustainability. By harnessing the power of AI, IoT, and digital technology, the three companies are committed to delivering innovative solutions that benefit businesses and society as a whole.

Mandrill Tech Sdn Bhd and its CEO, Davent Low, received two awards at the 11th edition SEBA

Davent Low, CEO of Mandrill Tech, Suhendra Arianto, CEO of ServeDeck Innovation and YBrS. Tuan Ahmad Fuad Che Mi, Group COO of Enviro Group Asia and witnessed by YBhg Datuk Nitesh Malani, Chairman of Yayasan Usahawan Malaysia and Founder of the SEBA Award
