About HRO Today:

HRO Today's Baker's Dozen Customer Satisfaction Rating: Pre-Employment Screening is based on quantitative rankings and feedback from approximately 1,200 verified customers from over 550 client companies through an online survey on categories including service breadth, deal sizes, and service quality. The customer survey data used to achieve this recognition is based primarily on customer satisfaction. To achieve inclusion on the Baker's Dozen list, companies are rated anonymously by their clients. Once collected, response data for all providers with a statistically significant sample size are loaded into the HRO Today database for analysis using a statistical analysis and predetermined algorithm. The Baker's Dozen list is one of the most prestigious surveys in the pre-employment screening industry.
