

TuxCare Endless Lifecycle Support for End-of-Life Linux Now Available through cloudimg

PALO ALTO, CA, UNITED STATES,
November 26, 2024 /

EINPresswire.com/ -- [TuxCare](#), a global innovator in cybersecurity for Linux, today announced that UK-based [cloudimg](#) now offers its customers [TuxCare Endless Lifecycle Support \(ELS\)](#) services.

As one of the largest providers of Amazon Machine Images (AMIs) in AWS Marketplace, cloudimg brings further

value to their customers through the optional TuxCare ELS services that provide ongoing vulnerability patches for end-of-life systems for as long as needed beyond the vendor-supported lifecycle. cloudimg users are also offered discounted pricing through the TuxCare website.

“This new TuxCare-cloudimg partnership significantly expands the global reach of our ELS services while also providing notable convenience and savings for cloudimg users,” said Michael Canavan, Chief Revenue Officer at TuxCare. “We welcome working with industry leaders such as cloudimg to make it easier to gain the much-needed end-of-life support.”

“This partnership with TuxCare allows us to address a critical challenge for our customers,” said George Harrison, CTO at cloudimg. “Many of our users continue to rely on popular operating systems like CentOS 7 and Ubuntu 18.04 for their stability and performance. TuxCare’s Endless Lifecycle Support ensures these systems remain secure and operational well beyond their vendor-supported lifecycles. We’re thrilled to offer this essential service to our customers, along with exclusive discounted pricing.”

About cloudimg

Our development team researches and develops solutions for automating IT infrastructure. We implement automated workflows and offer comprehensive technical aid to customers. We assist our users on their product development with the aid of removing the complexity of configuring, updating, and managing servers and software. For more information, visit www.cloudimg.co.uk.
