

Dr. Eugene Reinersman Highlights Innovative Use of Ketamine in Treating Depression

Broomfield, CO – Dr. Eugene Reinersman, a distinguished provider at Khrysalis Infusion, has unveiled crucial insights about ketamine’s potential in treating depression, challenging preconceived notions surrounding this powerful substance. With over 17 years of experience as a board-certified emergency medicine physician, Dr. Reinersman is pioneering the use of ketamine as a viable therapy for individuals grappling with depression.

Traditionally known as “Special K,” a party drug, ketamine has emerged as a revolutionary solution for mental health issues when administered in controlled doses. The dual approach of ketamine and its derivative, esketamine, are proving to be life-changing for many who have felt overwhelmed by their struggle with depression.

“Ketamines’ rapid therapeutic effects bring hope to patients who have tried multiple treatments without success,” said Dr. Reinersman. “At Khrysalis Infusion, we are committed to offering cutting-edge, evidence-based therapies that prioritize the well-being and recovery of our patients. It’s a privilege to provide an option capable of transforming lives.”

Khrysalis Infusion offers comprehensive ketamine therapy in Colorado to address a wide range of mental health conditions, including anxiety, PTSD, and chronic pain. By administering ketamine through controlled intravenous infusions under certified medical supervision, the clinic aims to alleviate symptoms quickly and effectively, empowering patients to regain control over their mental and physical health.

Khrysalis Infusion is dedicated not only to innovative Ketamine therapy but also to providing compassionate and personalized care. Patients receive ongoing support through every stage of their healing process, ensuring a safe and reassuring environment conducive to lasting improvements in mental health.

For more information about ketamine therapy and Khrysalis Infusion’s range of treatments, visit khrystalisinfusion.com or contact us to schedule a free consultation.
