

# New Book Release: 'Space Trip' by Vincent Chin Delivers a Gripping Sci-Fi Tale of Rescue, Mystery, and Choices

---

DOVER, NJ, UNITED STATES, November 21, 2024 /EINPresswire.com/ -- Vincent Chin's latest novel, *Space Trip*, presents a remarkable blend of science fiction and suspense, inviting readers to follow a high-stakes rescue mission in a distant, interstellar setting. The story revolves around Werewolves, who are being forced to leave their own planet by intruders. This release promises readers a compelling narrative filled with tension, unexpected discoveries, and thought-provoking questions about freedom and ethics.

In *Space Trip*, Dr. Crayben learns that a range of species are being held captive in an ominous asylum, named "The Nine." In order to get them out, he risks his own safety but could only manage to save one female patient, who was put in a coma inside one of the asylum cells. With little information about her origins or why she was imprisoned, Dr. Crayben manages to evade those who run "The Nine" and brings her to the relative safety of his apartment. Yet, as a doctor, he understands the importance of ongoing medical care, enlisting the help of a medical assistant droid to monitor her health while he continues his investigation.

This book does not simply recount the adventure of a daring rescue; it explores ethical dilemmas and the challenges of providing care in a universe fraught with restrictions on personal freedom. The characters in the book *Space Trip* provide readers with a thoughtful depiction of dedication and courage in the face of complex moral choices. Through *Space Trip*, the author Vincent Chin has crafted a rich and atmospheric journey that encourages readers to consider the boundaries of duty and compassion.

## About the Author

Vincent Chin's love for storytelling started with his father's old comic collection, featuring *The Incredible Hulk* and other Marvel classics. Growing up in Texas, these early stories sparked his imagination and set him on a creative path. Moving to New York City twenty years ago opened up new worlds for Vincent, especially with his first visit to New York Comic Con—a transformative experience that solidified his love for heroes and complex narratives.

Since then, Vincent's journey has taken many forms, from working security at the Metropolitan Museum of Art to pursuing a dream of joining the police force. Instead, he became a handyman, acquiring skills through online tutorials to serve the city's residents. Writing remains his true

passion, and he channels his love for medieval settings, Western dramas, and classic hero quests into the stories he creates. For Vincent, storytelling is both a means of escape and an art form, and he is excited to bring his first published work to life, hoping it resonates with readers seeking adventure, intrigue, and a journey back to different worlds.
