The professional hair care products are grooming products that are used to apply on hair to get a desired hairstyle and are also used to handle hair problems including hair fall, frizzy hair, split ends, dandruff, and dry or itchy scalp. The professional hair care products include shampoo, hair wax, hair colorants, straightening & perming products, hair gel, hair conditioner, and others. Application of these professional hair care products nourishes the hair & scalp, and gives an aesthetic hairstyle and look. Moreover, these grooming products including hair straightening & perming products, hair colorants, and styling agents are gaining popularity among young as well as aged consumers. Over the past couple of decades, there has been a rise in the concern over the hair protection, hair fall, hair density, as well as the quality of hair that needs to be ude products including hair color, hair wax, hair straightener, and others. Increase in self-awareness toward following trending fashion among youngsters is expected to drive profits in the professional hair care market. Furthermore, the availability these professional hair care products in the market through different distribution channels that include online stores, salons, and others also boosts the professional hair care market growth.

The hair coloring segment in the professional hair care market is anticipated to be the fastest

growing segment during the forecast period. This is attributable to the rise in social media including Instagram as well as increase in celebrity influence has contributed toward rise in awareness about fashion trends related to hair color such as gray & pastel color specifically among the young consumers. In addition, golden Ombore hair color, rose blonde hair color, gray & pastel hair color, and nude hair color are some of the best hair color trends at present. Moreover, increase in number of hair salons and spas is also contributing in fueling the growth of the hair coloring segment in terms of value sales.
