The Hungry Horse

The Hungry Horse transports you to the early 1950s, a time when ambition and greed intertwine against the backdrop of the dam and aluminum plant in a small town. Loosely inspired by real events, this tale reveals a hidden gold vein in Teakettle Mountain that the workers never knew existed. For thirty long years, this treasure lies

concealed while the three brothers who own the plant are consumed by avarice. When their conscience finally awakens, 700 unsuspecting workers find themselves instant millionaires as the plant is sold and their original profit-sharing plan is honored. But the windfall nearly tears the town apart, leading to a spiritual revival that promises to restore faith and hope in the most unexpected ways.

As a disaster strikes, these seemingly opposite families are forced to unite for survival. Through their struggles, they discover that beneath their differences lie shared values and a common humanity. This deep dive into the complexities of modern America serves as a healing balm for our often fractured society.

The Kootenai Lodge

The Kootenai Lodge takes you back to the glamorous days of the Gilded Age, from 1906 to 1955, where the opulent playground of Bigfork, Montana, meets the bustling energy of New York City. In this enchanting story, humorous and heartwarming episodes abound, captivating readers who crave romance, history, and thrilling mysteries. Follow the family that built this summer retreat on Swan Lake and explore the extravagant lives of the "Captains of Industry" who shaped our nation and Montana. Told through the eyes of a German servant girl who arrives in America with dreams of her own, this narrative reveals her journey through the diverse cultures of Manhattan and Montana as she ultimately finds her place in both worlds.
