

Visium Technologies Signs Letter of Intent with Nate Vision & Co. Ltd. to Drive Smart Innovation in Tanzania

Project to Provide State-of-the-Art Hub for Mining and Industrial Innovation

FAIRFAX, GA, UNITED STATES, November 25, 2024

/EINPresswire.com/ -- [Visium Technologies](#), Inc., ("Visium" or the

"Company") (OTC PINK:VISM), a global cybersecurity and IT

infrastructure professional services company, announced today

that it has signed a Letter of Intent ("LOI") with Nate Vision & Co. LTD ("Nate Vision") to

collaborate on a transformative Smart Mining project in Tanzania. This partnership positions

Visium as a pivotal technology provider for the [Buzwagi Special Economic Zone](#) ("BSEZ"), an

ambitious hub designed to revolutionize mining and industrial development in the Kahama

Region.

“

We are honored to contribute our experiential knowledge to the BSEZ project, a groundbreaking initiative that aligns with our mission to deliver world-class technology solutions globally.”

Mark Lucky

The BSEZ will focus on refining a variety of critical minerals, including nickel, copper, and cobalt, while setting new benchmarks in efficiency, technological integration, and sustainability. The project will serve as a global center of excellence, supporting both large-scale industrial operations and small-scale artisanal mining enterprises.

Key Goals of the BSEZ Project:

- Mineral Processing Advancement: Promote the

beneficiation and processing of low-grade minerals to maximize value addition.

- World-Class Infrastructure: Develop cutting-edge facilities to support mineral refinement, advanced research, and innovative industrial processes.

- Global Market Access: Establish a secure, sustainable, and efficient commodity trading hub that connects Tanzania to international markets.

Smart Technology Integration in BSEZ:

The project will incorporate state-of-the-art Smart City technologies to create a fully integrated industrial ecosystem with features including:

- Sustainable Energy Solutions: Deployment of renewable and energy-efficient systems.
- IoT and AI Integration: Utilize IoT sensors for real-time monitoring of machinery, mineral quality, and operations. AI-driven analytics will enhance data protection, compliance, and operational efficiency.
- Digital Transformation: Advanced IT infrastructure and cybersecurity frameworks to safeguard critical operations and ensure seamless connectivity.

Under the LOI, Visium will leverage its expertise to provide:

- Cybersecurity Solutions: Comprehensive IT/OT security frameworks to protect operations and data.
- IT Infrastructure Design: Scalable and secure systems tailored for industrial environments.
- Data Analytics and Monitoring: Artificial Intelligence ("AI")-driven tools for machinery performance tracking and quality control.
- Hardware and Software Deployment: Robust technology solutions for operational excellence and regulatory compliance.

Mark Lucky, CEO of Visium Technologies, expressed his enthusiasm for the collaboration:

"This partnership with Nate Vision marks a significant step forward for Visium. We are honored to contribute our experiential knowledge to the BSEZ project, a groundbreaking initiative that aligns with our mission to deliver world-class technology solutions globally. Nate Vision's local knowledge and stakeholder engagement are invaluable assets. We are excited to work together to drive innovation, sustainability, and economic development in Tanzania."

This collaboration underscores Visium's commitment to advancing innovation in cybersecurity and IT solutions while expanding its global presence. The BSEZ initiative exemplifies how technology and sustainability can reshape industries and create new economic opportunities.

About Visium Technologies, Inc.

Visium Technologies (OTC PINK:VISM) is a cyber security solutions provider that uses graph database technology to deliver an analytics-driven, risk-based approach to cybersecurity that provides context to data so that users can make intelligent decisions in real time. Our world class AI-driven TruContext™ technology provides visualization, advanced cyber monitoring intelligence, data modeling, analytics, and automation to help reduce risk, simplify cyber security, and deliver better security outcomes. TruContext™ plugs the gaps left by other security tools.
