Dr. Sam Speron Highlights Trends in Cosmetic Surgery as Men Surpass Women in Procedure Numbers

CHICAGO, IL, UNITED STATES, December 10, 2024 /EINPresswire.com/ -- Dr. Sam Speron, a renowned board-certified plastic and reconstructive surgeon, is at the forefront of the rapidly evolving [cosmetic surgery](#) landscape. Specializing in transformative procedures that enhance both appearance and confidence, Dr. Speron has established himself as a trusted expert for patients seeking top-tier aesthetic outcomes.

With years of experience in plastic surgery, Dr. Speron has witnessed the shifting trends in patient preferences, especially as nonsurgical and minimally invasive treatments continue to gain popularity. "We're seeing an increasing demand from younger patients who want to focus on rejuvenation—stopping aging before it starts," says Dr. Speron. "Minimally invasive treatments like injectables and skin resurfacing are giving patients real results with little downtime."

A Surge in Male Cosmetic Surgery

Dr. Speron has also observed a notable shift in his male clientele. Recent industry data reveals that men are now outspending women by 8% per visit on aesthetic treatments, with the average man spending \$1,678 per visit on cosmetic procedures compared to \$1,357 for women. "The stigma around men seeking aesthetic treatments is fading fast," says Dr. Speron. "Men are realizing that looking good isn't just for the ladies—it's about confidence and feeling your best."

This trend is evident in the rise of male patients seeking procedures like Botox, liposuction, and facial rejuvenation. "Men want to look refreshed without looking 'done,' and modern techniques allow us to achieve that subtle, natural look," Dr. Speron explains

Customizing the Patient Experience

Dr. Speron prides himself on offering a patient-centric approach. "Every face and body is unique, and there's no one-size-fits-all solution. My goal is to work closely with each patient to create results that not only meet their aesthetic goals but also harmonize with their natural features," he says. His practice offers a wide range of procedures, including breast augmentation, facelifts, and body contouring, along with cutting-edge nonsurgical treatments like laser skin resurfacing, chemical peels, and injectables

About Dr. Sam Speron
