

# Backlinkit: The New 24/7 Backlink Intelligence Service to Protect Domain Authority is Launching on December 1st, 2024

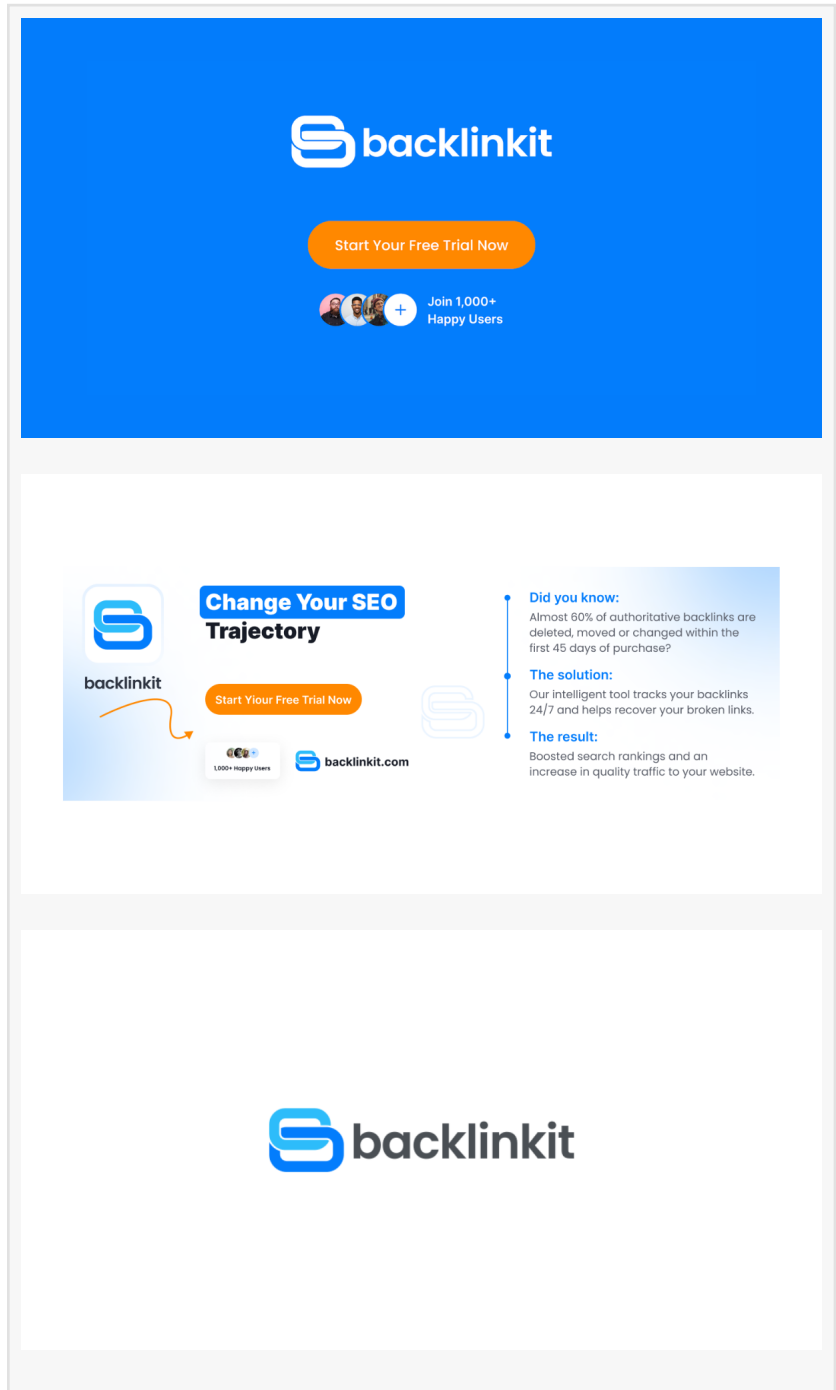

*The new software monitors backlinking campaigns to assist agencies and businesses.*

PAARL, WESTERN CAPE, SOUTH AFRICA,  
November 27, 2024 /

EINPresswire.com/ -- In interesting news, [Backlinkit](#) has finally announced the date of its impending launch: 1st December 2024. Backlinkit is an innovative 24/7 backlink intelligence platform designed to protect hard-earned backlinks that boost SEO rankings and drive valuable traffic to businesses.

Backlinkit combines comprehensive monitoring with seamless automation to simplify and safeguard backlink campaigns, helping users to proactively detect dropped or altered links and recover them quickly without manual intervention.

With Backlinkit, users gain real-time tracking and an automated recovery system, addressing a critical need in today's fast-paced digital environment where authoritative backlinks can disappear within just 45 days, impacting website rankings and domain authority.

The image shows a promotional banner for Backlinkit. The top section is a blue banner with the Backlinkit logo and a "Start Your Free Trial Now" button. Below this is a white section with a diagram titled "Change Your SEO Trajectory" showing a flow from a broken link to a recovered link, with a "Start Your Free Trial Now" button and a "1,000+ happy users" badge. To the right of the diagram is a "Did you know?" section with three bullet points: "Almost 60% of authoritative backlinks are deleted, moved or changed within the first 45 days of purchase?", "The solution: Our intelligent tool tracks your backlinks 24/7 and helps recover your broken links.", and "The result: Boosted search rankings and an increase in quality traffic to your website." The bottom section is a white banner with the Backlinkit logo.

In the words of one of the company's key spokespersons, "Many valuable backlinks can vanish within just 45 days without monitoring; these lost links could weaken your SEO efforts and reduce your online visibility. But with Backlinkit, all those worries will be put to rest."

### Preserve and Strengthen the SEO Strategy with Backlinkit

Backlinkit's intelligent system provides constant insight into backlink health, ensuring users can act promptly to retain their link portfolio's value. Backlinkit's sophisticated tracking includes monitoring link status, indexing, anchor text, and other critical metrics, all accessible 24/7 through an easy-to-use interface.

The automated link recovery function further enhances its appeal, sending direct alerts to providers when a link goes offline or is modified, enabling fast correction and maintaining the intended SEO impact. Designed with agencies in mind, Backlinkit empowers marketers to monitor client backlinks effortlessly, delivering greater efficiency and transparency in campaign management.

### Key Features:

Backlinkit brings together a powerful set of features to help users manage backlinks, bolster domain authority, and protect SEO rankings:

1. **24/7 Real-Time Monitoring** – Backlinkit enables constant tracking of backlinks, providing instant notifications on any changes, drop-offs, or updates to maintain campaign integrity.
2. **Automated Link Recovery Notifications** – When links become inactive or modified, Backlinkit notifies the provider automatically, streamlining the recovery process and helping users retain their link investments. Providers receive detailed information to make corrections efficiently.
3. **Client Domain Management for Agencies** – Backlinkit supports multiple domains and clients, allowing users to manage client-specific campaigns and provide clients with up-to-date performance visibility.
4. **Bulk Import and Export Functionality** – Users can upload thousands of links at once, tag and categorize them for streamlined tracking, and export data in CSV format for further analysis, saving valuable time.
5. **Advanced Filtering and Comprehensive Metrics** – The software allows users to filter links by various metrics, such as anchor text, IP address, and link type, offering a detailed view of campaign performance.
6. **Google Index Checker** – Backlinkit includes a Google index checker to ensure links remain indexed and visible to search engines, safeguarding SEO impact over time.
7. **Customizable Tagging and Alerts** – Tags and specific alerts enable users to be immediately notified of any changes to link status, anchor text, or follow attributes, further optimizing link campaign management.

Backlinkit's extensive feature set and intuitive design make it a powerful tool for SEO professionals and website owners looking to preserve domain authority through comprehensive, real-time link tracking and streamlined recovery processes. Available in three packages, Backlinkit offers solutions tailored to various needs, whether for individual website owners or

full-scale agencies managing multiple clients.

### Seven-Day Free Trial Starts December 1st

To mark the launch, Backlinkit will offer a seven-day free trial beginning December 1st, giving users the chance to explore its real-time tracking, bulk import, and automation tools. The platform's flexible subscription options make it easy to scale as backlink needs grow, delivering a powerful, reliable solution to backlink monitoring and recovery.

Backlinkit is now poised to reshape how businesses manage backlinks, providing a smarter, automated approach to SEO link maintenance that can save time, maximize domain authority, and boost website rankings.
