

H2Ocean Expands Manufacturing Operations to Texas: Revolutionizing Oral Care Nationwide

H2Ocean to Meet Growing Demand and Establish a Stronger Manufacturing and Research Presence in the State of Texas

STUART, FL, UNITED STATES, November 26, 2024 /EINPresswire.com/ --

[H2Ocean](#), a global leader and

innovator in [sea salt](#)-based products, is thrilled to announce the commencement of manufacturing its oral care products in Dallas, Texas. This strategic expansion marks a significant milestone for the company, significantly increasing its production capacity to meet the surging

“

Texas offers an incredible network of resources, and we're thrilled to be part of it. Our collaboration with manufacturing facilities and research institutions will be very crucial moving forward.”

Eddie Kolos, CEO

H2Ocean- First in First Aid

demand for its groundbreaking sea salt based oral care products. Additionally, it strengthens the company's supply chain, ensuring better service to customers nationwide. “Starting our manufacturing operations in Dallas is a transformative step forward,” said Tristan Kolos, Supply Chain Manager at H2Ocean. “This expansion positions us to scale our operations, meet nationwide demand, and reaffirm our commitment to delivering high-quality, natural oral care products that improve oral health.”

H2Ocean: A Pioneer in Oral Care Innovation

Renowned for its groundbreaking introduction of sea salt

into the oral care industry, H2Ocean has set a new standard in dental health. As the first company to harness the healing and protective properties of sea salt in mouthwash formulations, H2Ocean has earned a trusted reputation among dental professionals, cancer care specialists, and consumers alike. “H2Ocean has always been at the forefront of innovation,” Eddie emphasized. “Our sea salt based mouthwash not only supports oral hygiene but also offers a lifeline for patients suffering from chemo mouth by providing hydration, soothing relief, and accelerated healing. This is the kind of impact we aim to amplify through our Dallas operations.”

Meeting Demand with Enhanced Production Capabilities

The Dallas manufacturing facility is designed to increase efficiency, expand production capabilities, and ensure the timely delivery of H2Ocean's products nationwide. By centralizing operations in a strategically located hub, the company is well-positioned to better serve its growing customer base and healthcare partners. "This expansion is not just about scaling production—it's about doing it smarter," Kolos explained. "With this facility, we're poised to meet growing consumer demand while maintaining the highest standards of quality and sustainability."

Forging Collaborative Partnerships in Texas

Texas is home to some of the nation's most prestigious universities and research institutions, making it an ideal location for H2Ocean to deepen its collaborative efforts. By engaging with leading academic and medical experts, the company aims to drive innovation and explore new frontiers in oral care and beyond.

A Vision for the Future: Research Facility in Houston

Looking ahead, H2Ocean is planning to establish a cutting-edge research facility in Houston, Texas. Under the leadership of Dr. Rajiv Saini, Chief Scientific Officer, this center will focus on advancing oral care research, exploring new product formulations, and solidifying H2Ocean's position as a global leader in sea salt based healthcare innovation. "Houston represents the next chapter in our journey," Eddie remarked. "With Dr. Rajiv Saini at the lead, we're confident this research facility

will become a hub for transformative discoveries that will shape the future of oral care.”

Unique Features of H2Ocean’s Oral Care Products

H2Ocean’s flagship [Healing Rinse](#) Mouthwash is formulated with Sea salt from the Red Sea, xylitol, and lysozyme, making them uniquely effective for managing chemo mouth, post-operative infections, and general oral hygiene. These products are safe for all, including children, the elderly, and those with diabetes, offering unparalleled benefits such as:

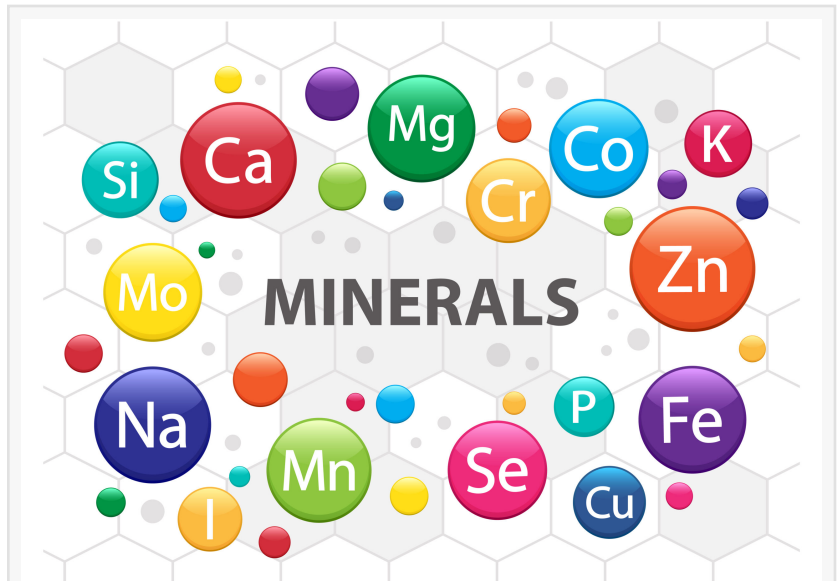

1. Hydration and soothing relief for sensitive oral tissues.
2. Accelerated healing of oral wounds and ulcers.
3. Antimicrobial properties to prevent secondary infections.
4. Natural ingredients free from alcohol, synthetic fluoride, and harsh chemicals.

These innovations have made H2Ocean a trusted name among healthcare professionals and patients managing oral side effects of cancer treatments.

Strengthening Manufacturing and Research Connections in Texas

The expansion into Dallas and the forthcoming research facility in Houston reflect H2Ocean’s long-term commitment to investing in Texas, a state synonymous with opportunity, innovation, and collaboration. By embedding itself into the vibrant Texas healthcare and research ecosystem, H2Ocean is poised to deliver unmatched value to its customers and partners. “This is more than a business decision—it’s a partnership with the Great State of Texas,” Eddie Kolos said. “We’re here to grow, innovate, and make a lasting impact on healthcare.” H2Ocean is a globally recognized leader in natural health and oral care solutions. With a mission to harness the healing power of sea salt and other natural ingredients, H2Ocean has redefined oral and wound care. The company’s commitment to quality, sustainability, and innovation has earned it the trust of healthcare professionals and consumers worldwide.
