Participants in the 2024 Walk for Hope

The Walk for Hope aligns with California Closets' mission and values, as the company is

“

We want to show our commitment to fostering connections and making a positive impact in the lives of those facing mental health challenges.”

Graziella Marengi, Co-Franchise Owner

committed to fostering community connections and promoting well-being. This partnership stemmed from a shared commitment to mental health awareness and the importance of supporting individuals facing mental health challenges.

"Being part of the Walk for Hope was incredibly meaningful for us," said Ariel Chenworth, Marketing Manager at California Closets. "This event was an opportunity to raise awareness for mental health and connect with our community in a significant way. We wanted people to know

that California Closets is dedicated to being a community partner and supporting important causes."

At the Walk for Hope, California Closets engaged directly with participants, with team members and designers joining in the 3-mile walk/run to show their support. This active participation allowed California Closets to connect with the Raleigh community and emphasize its

commitment to local initiatives. After the walk, participants enjoyed an afternoon filled with food, games, music, and prizes, creating a family-friendly atmosphere that underscored the event's mission. The California Closets team hopes that attendees left with a sense of connection and awareness of California Closets' involvement in community outreach.

The Walk for Hope is a celebration of resilience and support. The event has raised millions of dollars over the past 35 years to improve understanding and treatment of mental illnesses, including depression, bipolar disorder, PTSD, postpartum depression, schizophrenia, and anorexia.

"We're proud to be part of such an important cause," said franchise co-owner Graziella Marengi. "We want to show our commitment to fostering connections and making a positive impact in the lives of those facing mental health challenges."
