Africa’s pension fund industry is changing and adapting to internal and external factors, such as shifts in demographics, asset allocation strategies required to support infrastructure growth, and the anticipated impact of technological advancements.

PIAFRICA 2025 will look inward to Africa to explore alternative asset allocation strategies and opportunities for risk adjusted growth, while also looking outward to international Asset Managers, to further understand how Africa can attract and benefit from international fund allocations, gain deeper insights into alternative investment strategies, and mitigate associated risks. These and other pertinent issues will come into sharp focus at PIAFRICA 2025 , which runs under the theme ,“Investing for Tomorrow to Achieve Maximum Impact and Sustainable Economic Growth.”

The 2024 edition convened 44 pension funds overseeing billions in assets and with considerable capital to deploy. Over 200 participants were drawn from 25 countries heard from an accomplished lineup of 50 distinguished speakers.

Effective fund management and investment in today’s uncertain dynamic global economy require decisive leadership empowered by incisive knowledge.

PIAFRICA is the place to be to gain the latest industry insights on mega trends charting the future and to make the strategic connections needed to move forward with high impact and sound growth. The event is set to facilitate knowledge exchange between alternative investment managers and the various pension funds and asset owners.

Join like-minded professionals and help drive the future of the industry. For more information about the conference, including registration details and the full agenda, please visit pensionfundsafrica.com.
