What are the projections for [the Custom T-Shirt Printing Market Size in the upcoming years?](#)

The custom t-shirt printing market is forecast to grow significantly in the coming years. It is expected to reach \$12.1 billion by 2028, reflecting a compound annual growth rate CAGR of 10.1%. This expected growth can be attributed to an increase in sports and event merchandise,

corporate branding, global market expansion, the popularity of fandom merchandise, and activewear trends. Additionally, significant trends such as virtual try-on and augmented reality, eco-friendly inks and materials, sustainability and eco-friendly printing, on-demand printing and quick turnaround, and digital printing technologies are expected to boost market growth.

What are the [major growth drivers for the Custom T-Shirt Printing Market?](#)

The immense growth we are witnessing in the custom t-shirt printing market can be largely attributed to the increasing government investment in sporting activities. In sporting events and matches, customized t-shirts give team players a unique appearance and increase team visibility. For instance, in 2021, UK Sports, a UK-based government agency for major sporting events, aims to invest around £41 million USD55.56 million into the UK's bids to host the 2025 Women's Rugby World Cup, and the 2026 Tour de France Grand Départ, along with support for a potential UK and Ireland bid for the 2030 FIFA World Cup. In addition, in 2021, Odisha, India, announced its intent to invest Rs 650 crore USD86.87 million in Rourkela, as part of preparations to host the 2023 Hockey World Cup.
