

Ancient Gaming Introduces Innovative Recruitment Strategy: Candidates Set Their Own Salary

"This recruitment effort is about more than filling a role," said Elnaz Gerami, CEO of This Is It Marketing, the agency assisting Ancient Gaming with its hiring initiative. "We're looking for someone who aligns with our vision for the gaming industry and can contribute to its growth."

A Gamified Application Experience

The application process is designed to reflect Ancient Gaming's creative and interactive culture. Rather than a traditional format, candidates will participate in a gamified recruitment journey that includes clues and challenges distributed via social media platforms. This approach aims to assess creativity, problem-solving skills, and enthusiasm for the gaming sector.

"The process provides insight into the candidate's mindset and approach to challenges," added Gerami. "It's a dynamic way to identify individuals who are ready to take on a leadership role within our team."

Flexibility for the Right Candidate

The option for candidates to propose their own salary is part of Ancient Gaming's effort to prioritize talent and vision over conventional benchmarks. The company sees this as an opportunity to create a mutually beneficial partnership with the right individual.

The ideal candidate is a driven, creative professional with a passion for gaming and a desire to make a meaningful impact on the industry. This role offers the chance to help shape the company's future while developing a career path that aligns with their goals.
