

Bosque by Larissa Garbers Wins Bronze in A' Architecture Awards

Larissa Garbers' Residential Building Design, Bosque, Receives Prestigious A' Architecture, Building and Structure Design Award

COMO, CO, ITALY, November 28, 2024 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [architecture](#) design, has announced [Larissa Garbers'](#) residential building design, Bosque, as a Bronze winner in the Architecture, Building and Structure Design category. This prestigious recognition highlights the exceptional design and innovation showcased in Bosque, positioning it as a noteworthy achievement within the architecture industry.

Bosque

Bosque's recognition in the A' Architecture, Building and Structure Design Award holds significant relevance for the industry and potential customers. The design's focus on sustainability, functionality, and aesthetic appeal aligns with current trends and demands in the architecture field. By incorporating green technologies, optimizing spaces, and fostering a sense of community, Bosque sets a valuable example for future residential building projects, showcasing the practical benefits of innovative and thoughtful design.

Bosque stands out for its seamless integration of indoor and outdoor spaces, utilizing clean lines, contemporary materials, and an open-plan layout to create a sense of openness and togetherness. The design incorporates renewable energy sources and passive design elements to reduce energy consumption, while clever storage solutions maintain a minimalist aesthetic. The outdoor space serves as an extension of the living areas, encouraging interaction with nature and promoting well-being.

This recognition from the A' Architecture, Building and Structure Design Award serves as motivation for Larissa Garbers and her team to continue pushing the boundaries of residential building design. The award validates their commitment to sustainability, functionality, and aesthetic excellence, inspiring them to further explore innovative solutions that enhance the living experience for residents. Bosque's success may influence future projects within the brand, setting a new standard for residential architecture.

About Larissa Garbers

Larissa Garbers is a Brazilian architect who is passionate about creating spaces that accommodate client needs, inspire creativity, and promote functionality while considering aesthetics, sustainability, and cultural significance. Her designs focus on eco-friendly materials and techniques to reduce environmental impact, ensuring efficiency and comfort for the people who interact with the environments she creates. With a blend of art, science, and functionality, Larissa Garbers' work as an architect shapes experiences and influences how people interact with the world around them.

About Bronze A' Design Award

The Bronze A' Design Award recognizes outstanding designs that demonstrate a notable level of creativity and practicality within the Architecture, Building and Structure Design category. The award acknowledges designers who skillfully develop innovative solutions, considering factors such as innovative use of space, structural integrity, aesthetic appeal, environmental impact, functional efficiency, material selection, technological integration, social relevance, cultural sensitivity, economic viability, design originality, user comfort, energy efficiency, adaptability to change, use of natural light, spatial harmony, safety measures, accessibility considerations, and resilience to weather. Winning designs are selected through a rigorous blind peer-review process by an expert jury panel, ensuring that only the most deserving projects receive this prestigious recognition.

About A' Design Award

The A' Architecture, Building and Structure Design Award is a prestigious international design competition that recognizes superior architecture and structure design skills. Organized annually since 2008, the award welcomes entries from star architects, engineering firms, leading construction companies, and influential brands worldwide. Through a rigorous blind peer-review process, a panel of design professionals, architecture industry experts, journalists, and academics evaluate entries based on pre-established criteria. By participating in this competition, entrants gain global recognition, showcase their design vision, and contribute to advancing the architecture and design fields. The A' Design Award ultimately aims to create a better world by recognizing and promoting superior products and projects that positively impact society.
