Rise in number of vegan populations, significant rise in obesity rates, and surge in awareness among people for health & fitness fuel the growth of the global plant-based protein supplement market. On the other hand, presence of cheaper substitutes and their substitutes restrain the growth to some extent. Nevertheless, increase in number of millennial populations and rise of social media marketing are projected to usher in a number of opportunities in the market.

Frontrunners in the industry-

The key players analyzed in the report include Sequel Natural Ltd., Hormel Foods Corporation, Glanbia plc, Vital Amine, Inc. True Nutrition, MusclePharm Corporation, Archon Vitamin LLC., Nutiva Inc., NOW Health Group, Inc., and General Nutrition Centers, Inc. These players have incorporated a number of exclusive strategies including expansions, mergers & acquisitions, partnerships, joint ventures, collaborations, and others to retain their strong hold in the market.

The conventional segment generated the largest share in 2018-

Based on nature, the conventional segment contributed to more than four-fifths of the total market share in 2018, and is expected to dominate by the end of 2026. The same segment is also expected to grow at the fastest CAGR of 6.9% throughout the forecast period. The research also analyzes the organic segment.
