

Autonomous Cranes Market Size to Reach \$18,618.5 million by 2032: KONECRANES PLC, VOCA, INTSITE Ltd.

By business type, the aftermarket segment is expected to register significant growth during the forecast period.

WILMINGTON, NEW CASTLE, DE, UNITED STATES, November 28, 2024 /EINPresswire.com/ -- The [Global Autonomous Cranes Market Opportunities and Forecast, 2023-2032](#) report offers a detailed analysis of changing market trends, top segments, key investment pockets, value chain, regional landscape, and competitive scenario. Growth in inclination toward high-end safety of construction and industrial workers and growing penetration of smart technologies, such as AI, in the field of equipment are the crucial factors for the global autonomous cranes market. Moreover, the building & construction segment is anticipated to create lucrative growth opportunities for the autonomous cranes market, owing to growing adoption of high-end technology at the construction sites and increasing concern toward workplace safety. Increasing development activities of smart port enabled with autonomous cranes are expected to create a significant opportunity in the global market.

Global **AUTONOMOUS CRANES** Market
Opportunities and Forecast, 2023-2032

Global Autonomous Cranes Market is expected to reach **\$18.62 Billion** by 2032.

Growing at a **CAGR of 22.8%** (2023-2032)

Autonomous Cranes Market

The global Autonomous Cranes Market is expected to be valued at \$2.37 billion in 2022, and is projected to reach \$18.62 billion by 2032, registering a CAGR of 22.8%. North America is projected to be the highest revenue contributor, accounting for \$1.21 billion in 2022, and is estimated to reach \$9.03 billion by 2032, with a CAGR of 22.5%. Asia-Pacific is estimated to reach \$6.94 billion by 2032 at a significant CAGR of 24.7%.

Based on business type, the aftermarket segment would contribute the highest share in 2022, accounting for more than two-thirds of the total share, and is estimated to maintain its lead

& offshore, mining & excavation and increase in trend of AI based equipment solutions. In addition, trained and skilled labor is required for operation of the autonomous cranes as it is associated with complicated configurations, along with set of critical function handling. In addition, building and construction is a leading consumer of the autonomous crane solutions. It is expected to hold a leading market share in the global autonomous cranes market.

Based on region, North America is expected to contribute to the highest share in 2022, accounting for more than half of the total share, and is estimated to continue its lead in terms of revenue by 2032. However, Asia-Pacific is projected to portray the largest CAGR of 24.7% during the forecast period.

By business type, the aftermarket segment is expected to register significant growth during the forecast period.

By business type, the aftermarket segment is expected to register significant growth during the forecast period.

On the basis of mobility, the mobile segment is projected to lead the global market in terms of market share.

Depending on end user vertical, the building & construction segment is projected to dominate the global market.

North America is expected to be the global leader in the autonomous cranes market in terms of market share.
