*Legalspace.ai launches on Dec 16, offering 7 tools for research, case management, courtroom apps to enhance workflows and ensure ease of operations in legal.*

AHMEDABAD, GUJARAT, INDIA,  
December 16, 2024 /

EINPresswire.com/ -- LegalSpace.ai, an integrated digital workspace for legal professionals, will launch on December 16, 2024, introducing seven specialised tools to enhance workflows in the Indian legal sector. The platform is designed to support tasks such as legal research, case management, courtroom apps, drafting, and document templating, with a strong focus on data security.

The suite of tools includes:

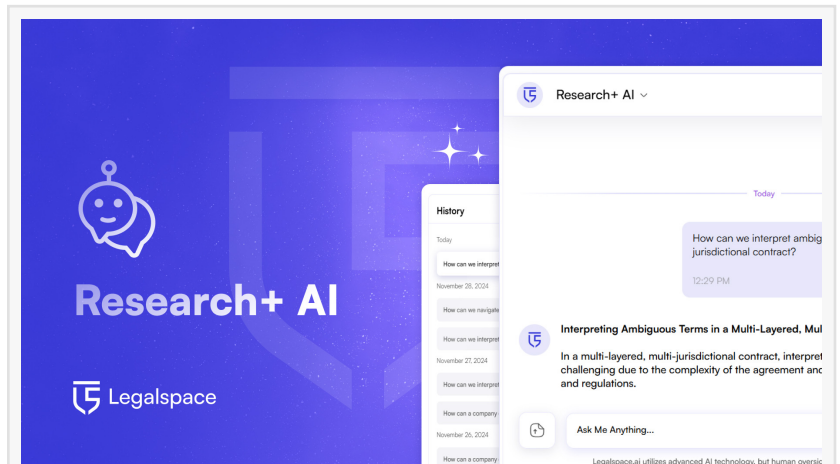

**Research+ AI:** A tool for comprehensive law and case research using AI for precise and efficient results.

**Matterwise:** A case management system to help legal professionals track and organise cases.

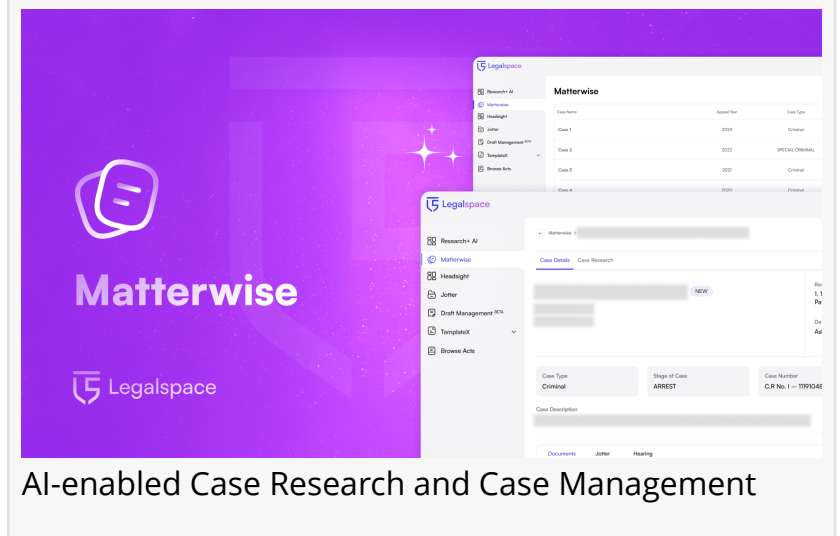

**Headsight:** A platform for browsing judgments, generating headnotes, and querying judicial data using AI.

**Jotter:** A note-taking application integrated with case links for streamlined research.

**AI-powered Drafts Management (Beta):** A drafting tool trained on Indian legal documentation

practices for accuracy.

TemplateX: A templating tool for customising and reusing legal document templates.

Law Library for Browsing Laws: A digital law library encompassing constitutional laws, state statutes, rules, and circulars.

Legalspace.ai's infrastructure prioritises data protection. The platform utilises self-hosted machine learning models and implements best-in-class security practices to safeguard user information.

"The Indian legal sector faces challenges in adopting technology that meets its specific needs. LegalSpace.ai addresses these gaps by providing a single workspace for multiple critical tasks while ensuring data security," said [Your Name], Co-Founder of LegalSpace.ai.

The platform will be available to legal professionals starting December 16, with an early access program open for sign-ups at [www.legalspace.ai](http://www.legalspace.ai).
