Culture Holidays' [mission](#) is to enlighten the world with compassion: To feed the hungry and offer hope where it's most needed. The company believes that even the smallest acts of kindness and compassion can create ripples effects of goodwill, making a lasting difference in the lives of the most vulnerable of the world. "The innocent smiles of children inspire us each day to help them who used to worry about their next meal but don't anymore. These smiles remind us why we're doing this," says Sanjay Bhasin.

This is How Culture Holidays' Travel to Transform mission works:

Culture Holidays' initiative revolves around a brilliantly simple concept: as you book your dream vacation, a percentage of your pay will be given towards feeding, providing nutrition, and nourishment for children living in poverty. Culture Holidays has partnered with many local charities and organizations in need of help, ensuring the contribution reaches the right places and people at the right time. The vision is to have a world where no child will go to bed hungry.

Culture Holidays envisions a world where children are never deprived of a meal and where the cycle of poverty is broken for good. Their mission is to prevent hunger and malnutrition by providing nutritious meals to the most vulnerable children, offering them a chance to build a future filled with hope and possibilities.

By booking with Culture Holidays, people are not just enriching their lives but they are also making a difference in the world of others in real. Every trip, every tour, every single journey with us contributes to feeding hungry children and providing them with the resources they need to grow healthy and strong.

Culture Holidays invites all travelers to be a part of this revolutionary movement. Every booking, no matter the destination, contributes to the lives of children who need it most. "Let the change last for them," says Bhasin. "With your support, we can make a real, lasting difference."
