EverDear The Book of Life Packaging

The trillion and hexagon cuts are a testament to EverDear™'s commitment to innovation and meeting the evolving needs of its customers. These unique cuts add a modern touch to the traditional diamond cuts, providing more options for families to honor their loved ones in a truly personalized way. Each diamond is created from the carbon extracted from cremated ashes or hair, preserving the memories of a loved one in a beautiful and everlasting form.

In line with EverDear's dedication to creating meaningful memorials, the new jewelry collection features a series of cremation diamond lockets, as well as an expanded range of rings, pendants, and earrings in various styles. Each locket is designed to hold both a cremation diamond and a cherished photo, bringing loved ones even closer through these heartfelt tributes.

In addition to its product innovations, EverDear™ is committed to supporting families in need through partnerships with non-profit organizations that focus on mental health, and grief support. One such partnership is with Gentle Barn, an organization renowned for its unique approach to healing. Gentle Barn provides sanctuary to rescued animals, creating a safe haven

where visitors, especially those dealing with loss, can find solace and comfort in the presence of these gentle creatures. As part of this collaboration, EverDear will host a booth every Sunday in December 2024 at Gentle Barn Farm.

For those seeking a meaningful way to honor their loved ones, EverDear™ presents an extraordinary solution that combines beauty, innovation, and heartfelt remembrance. These new offerings promise to enhance the experience of creating and receiving a cremation diamond, making the journey from ashes to diamonds an even more personal and cherished occasion.
