SFTPPlus Completes AS2 Interoperability Test Event with Drummond

SFTPPlus successfully completed Drummond's full-matrix AS2 test event, earning Drummond Certified™ status for Electronic Data Interchange (EDI) standards.

YEOVIL, SOMERSET, UNITED KINGDOM, December 2, 2024 /EINPresswire.com/ -- SFTPPlus successfully completed Drummond's full-matrix AS2 test event, earning Drummond Certified™ status. This certification confirms that SFTPPlus meets critical standards for secure and reliable data exchange, enabling seamless communication between trading partners while ensuring data integrity and security.

Drummond Certified AS2-4Q-2024

"I'm delighted to confirm the continuing development of SFTPPlus through collaboration with customers as well as utilising the efforts of our high quality development team. They are to be congratulated on reaching a major milestone through investment and commitment of time and skills." said Tim Adams, Sales Director at Pro:Atria, "This certification ensures that SFTPPlus remains at the forefront of secure file transfer solutions to meet the widest possible needs by offering a comprehensive and cost-effective product. As we approach our 20th year since SFTPPlus was launched, it is appropriate that such a major landmark is reached with a high profile certification."

During the test event, Drummond's experts rigorously evaluated SFTPPlus to ensure compliance with Electronic Data Interchange (EDI) standards. The full-matrix testing process included comprehensive assessments of secure data transmission, encryption, and authentication protocols, ensuring SFTPPlus delivers reliable and secure electronic communication.

"Congratulations to the team at Pro:Atria for successfully obtaining Drummond's AS2 certification," said Patrick Paschall, Director of Information Security & Interoperability Services at

"

This certification ensures that SFTPPlus remains at the forefront of secure file transfer solutions to meet the widest possible needs by offering a comprehensive and cost-effective product"

Tim Adams

Drummond. "AS2 interoperability testing and certification plays a vital role in ensuring secure and reliable data exchange between trading partners and is critical for organizations that rely on EDI for business operations"

Pro:Atria SFTPPlus version 5.7.0 successfully completed the 4th quarter 2024 full-matrix AS2 test event, earning Drummond Certified™ status. Certification confirms compliance with robust AS2 standards, including encryption, digital signatures, and delivery confirmation. This certification does not represent an endorsement by any governing body.
