

Looping Flower by Ni Jie Guo Wins Bronze in A' Interior Design Awards

Ni Jie Guo's Innovative Ikebana Cultural Space Recognized for Excellence in Interior Design

COMO, CO, ITALY, December 2, 2024 /EINPresswire.com/ -- The A' Design Award, a highly respected competition in the field of [interior](#) design, has announced Looping Flower by [Ni Jie Guo](#) as a Bronze winner in the Interior Space and Exhibition Design category. This prestigious recognition highlights the significance of Looping Flower within the interior design industry, acknowledging its innovative approach and exceptional execution.

Looping Flower's award-winning design showcases the relevance of traditional Japanese architecture in contemporary interior spaces. By incorporating elements of ikebana, the Japanese art of flower arrangement, Ni Jie Guo has created a cultural space that aligns with current trends in the industry while offering a unique and immersive experience for visitors. This innovative approach demonstrates the practical benefits of thoughtful interior design in enhancing user engagement and fostering cultural appreciation.

The design of Looping Flower stands out for its masterful use of space, material selection, and attention to detail. The interior features a harmonious blend of modern architectural language and abstract Japanese elements, creating a tranquil atmosphere that contrasts with the bustling exterior. The carefully calculated proportions of doors and the deliberate control of height create a sense of longitudinal stretching, reminiscent of traditional Japanese spaces. The incorporation of semi-high stone walls and cobbles as transitional points further enhances the seamless flow between the external environment and the interior.
