Hand Sanitizer Dispenser Global Market Report 2024 - Market Size, Trends, And Global Forecast 2024-2033

What is [the Hand Protection Equipment Market Size in 2024](#) and its Growth Rate?

“

The hand protection equipment market size is expected to see strong growth in the next few years. It will grow to \$51.34 billion in 2028 at a compound annual growth rate (CAGR) of 9.8%.”

*The Business Research
Company*

The hand protection equipment market size promises substantial growth. It is projected to surge from \$32.5 billion in 2023 to a staggering \$35.3 billion in 2024, with a compound annual growth rate CAGR of 8.6%. The significant growth in the historic period can be ascribed to various factors such as stringent occupational safety regulations, increased industrial growth, growing worker safety awareness, expansion of the healthcare sector, and escalated chemical and biological hazards.

What is the Hand Protection Equipment Market Growth Forecast?

The hand protection equipment market size is anticipated to reflect robust growth, soaring to a staggering \$51.34 billion by 2028, at a compound annual growth rate CAGR of 9.8%. This

projected growth in the forecast period can be attributed to steady innovation in sustainable materials, escalating healthcare spending, global supply chain considerations, remote work safety, and tailor-made solutions.

What are the Key Drivers Propelling the Growth of the Hand Protection Equipment Market?

The surge in awareness about safety and health measures is propelling the growth of the hand protection equipment market. Adoption of proper safety measures aids in preventing and reducing various health, hand, and arm hazards exposed during operational work. The stringent company policy and government regulation towards the safety and health of employees are instrumental in eliminating workplace risks at the source, typically through technical or organizational means. For instance, in July 2023, the National Irish Safety Organisation NISO, dedicated to promoting health and safety, launched a free short online course, on chemical safety in the workplace.
