The Talk Awards is continually seeking nominations for companies providing top-notch customer or patient service, granting the Talk Award to those that earn high rankings.

In partnership with the Stirling Center for Excellence, The Talk Awards uses its independent, proprietary research and evaluation system to identify businesses with a track record of providing a great customer experience. The rating system combines data collected from nominations, online and other customer reviews, surveys, blogs, social networks, business-rating services, and other honors and accolades — all of which express the voice of the customer. It brings many sources of information together into one rating for the year that shows the whole picture and avoids the pitfalls of unfounded or unjustified negative commentary posted by an unhappy employee or competitor.

"The Stirling Center is pleased to join The Talk Awards in recognizing these winners for their dedication to providing exceptional service," says Frank Andrews, Executive Director of The Stirling Center for Excellence. "It is in line with our mission of providing services and resources to companies that place an emphasis on providing an outstanding customer experience."

The Talk Awards is not about businesses competing against one another. Each individual business that is researched receives a star rating, and all those with enough positive feedback, scores and accolades will receive a 4-star to 5-star rating and an award page on The Talk Awards website. Both business owners and consumers can search the award pages to see who has received top honors.

#### About The Talk Awards
