Strategically situated to better serve Miami-Dade, Broward, and Palm Beach Counties, the [new office represents](#) MCO Construction’s continued commitment to excellence in project delivery and collaboration with local businesses

and government agencies.

MCO Construction is a well-known and well-respected company that prides itself on being “a small company with a large presence.”

Founded and led by visionary entrepreneur Ann McNeill, MCO Construction has built a solid reputation over the past forty years as a trusted partner in delivering high-quality infrastructure, transportation, and utility projects.

McNeill, a trailblazer in the construction industry and one of the few Black women owners of a general contracting firm in the region, is renowned for her leadership, community involvement,

and unwavering commitment to empowering minority and women-owned businesses within the industry.

“Opening this new office marks a significant milestone for MCO Construction,” said McNeill. “It positions us to expand our capacity and strengthen our partnerships with construction companies and government agencies across the tri-county area. Our team is excited to continue delivering innovative, sustainable, and cost-effective solutions that enhance the communities we serve.”

The new facility will house expanded project management and administrative offices with a dedicated team laser-focused on serving the specialized needs of the region’s airports, transit systems, and water utility agencies. MCO Construction has an extensive history of collaborating with these entities to ensure projects are completed on time, within budget, and with an emphasis on safety and environmental responsibility.

MCO Construction’s new location will serve as a hub for its growing portfolio of services, which include:

Staff Augmentation: Expertise in a range of construction disciplines for both public and private sectors.

Infrastructure Development: Supporting critical projects such as roadway improvements, airport expansions, and transit systems.

Water Utility Projects: Specialized construction management services for water treatment facilities, stormwater management, and pipeline construction.
