

Infopine Inc. Launches Industry-Specific Distribution ERPs for U.S. Textile, PCB, and Electrical Markets

Infopine Inc. has launched its DistFlow ERP suite in the U.S., tailored for textile, apparel, PCB, and electrical distributors.

NC, UNITED STATES, December 4, 2024 /EINPresswire.com/ -- Infopine Inc., a globally recognized leader in ERP solutions, has officially introduced its latest DistFlow ERP suite to the U.S. market. Designed to meet the specific needs of textile and apparel, PCB, and electrical distributors, the DistFlow

series —DistFlow Tex, DistFlow PCB, and DistFlow ELEC — streamlines operations, boosts efficiency, and enhances market competitiveness with measurable ROI.

“

Our U.S. expansion with the DistFlow ERP suite reflects our focus on innovation and customer-driven solutions, helping businesses tackle challenges and thrive in the complex distribution world.”

Achutha BK, Chairman

Infopine’s ERP product, iTexClouds, has already established a strong foothold in the U.S. market, earning recognition for its ability to transform textile manufacturing operations with cutting-edge technology and measurable results. This proven success has positioned Infopine as a trusted partner within the textile industry, providing a solid foundation for further expansion. With the launch of the DistFlow series, Infopine builds on this momentum, extending its expertise to address the unique challenges of distribution-specific operations across textile, PCB, and electrical sectors in the U.S. market.

DistFlow ERP: Purpose-Built for Industry Excellence

=> DistFlow Tex: Tailored for textile and apparel distributors, this ERP provides robust tools for inventory management, order processing, and logistics coordination. Its real-time visibility and control help distributors adapt quickly to market demands.

=> DistFlow PCB: Designed for PCB distribution businesses, this solution features inventory tracking, demand forecasting, vendor management, and compliance handling. It ensures seamless operations and enables distributors to stay competitive in a fast-paced market.

=> DistFlow ELEC: Built for electrical distributors, this ERP offers specialized support for supply chain management, order accuracy, and regulatory compliance. Its unique cut-to-length feature minimizes wire waste, making it ideal for optimizing operations and driving sustainable growth.

Leadership Insights

Manu V., CEO

"Our DistFlow series is designed to drive real-world results through intuitive design and seamless integration. With tailored functionalities for U.S. distributors, we're enabling faster decision-making, improved customer relationships, and greater operational resilience. These solutions offer the flexibility and agility that modern distribution businesses demand."

Todd Morgan, Vice President - Revenue Growth & Alliances

"Our DistFlow ERP solutions reflect Infopine's commitment to empowering distribution companies with advanced, industry-tailored tools," said Todd Morgan, VP of Revenue Growth & Alliances at Infopine. "We are excited about the possibilities this technology unlocks for our customers—helping them optimize operations, reduce costs, and deliver exceptional service in a rapidly evolving market."
