Angiographic Catheters Global Market Report 2024 - Market Size, Trends, And Global Forecast 2024-2033

## [What is driving the global angiographic catheters market?](#)

“

The angiographic catheters market size is expected to see strong growth in the next few years. It will grow to \$1.86 billion in 2028, at a compound annual growth rate (CAGR) of 9.5%.”

*The Business Research  
Company*

The angiographic catheters market size has shown considerable growth in recent years. Predictions suggest it will grow from \$1.18 billion in 2023 to \$1.29 billion in 2024. This represents an impressive compound annual growth rate CAGR of 9.4%. This growth in the historic period has been supported by increasing incidences of cardiovascular diseases, a rise in domestic income, a growing geriatric population, increasing preferences for minimally invasive surgeries, and government initiatives to raise awareness.

How are heart surgeries driving the angiographic catheters market?

One of the primary drivers propelling the growth of the angiographic catheters market forward is the increasing number of heart surgeries. Heart surgery, also called cardiac surgery, includes various surgical procedures carried out on the heart or the great vessels. The number of heart surgeries is on the rise for several reasons such as an aging population, a rise in cardiovascular diseases, advancements in medical technology, and improved surgical outcomes.

Which companies are major players in the angiographic catheters market?

Major companies operating in this market include Cardinal Health Inc., Abbott Laboratories, Medtronic plc, Koninklijke Philips N.V., Becton Dickinson and Company, Boston Scientific Corporation, B. Braun Melsungen AG, Terumo Corporation, Nipro Corporation, and Cook Medical Inc., among others. These leading industry players are setting the trend for robust growth in the angiographic catheters market.

[What are the innovative trends in angiographic catheters?](#)

Significant innovation and advancements in technology are influencing progress in the angiographic catheters market. Major companies are focusing on developing advanced technologies such as fiber optic realShape FORS technology. This enables real-time, high-resolution 3D imaging during catheter navigation, reducing radiation exposure and providing precision during complex vascular procedures.

How is the angiographic catheters market segmented?

The market is segmented based on the following parameters:

- 1 By Product: Conventional Catheters, Drug Eluting Balloon Catheters, Cutting Balloon Catheters, Scoring Balloon Catheters
- 2 By Technology: X-Ray, Magnetic Resonance Angiography MRA, Computed Tomography CT
- 3 By Application: Coronary, Endovascular, Neurology, Oncology, Other Applications
- 4 By End User: Hospital, Ambulatory Surgical Centers, Cardiac Centers, Brain Centers, Specialty Clinics, Other End Users

What are the regional insights into the angiographic catheters market?

North America took the lead as the largest region in the angiographic catheters market in 2023. Meanwhile, studies suggest that Asia-Pacific is expected to be the fastest-growing region in the forecast period, reflecting the global scope of the angiographic catheters market.
