

PrismXR Rolls out Quest 3S Charging Dock: Redefining VR Charging Solutions

The new product line bridges the virtual with the reality for endless explorations.

SINGAPORE, January 16, 2025 /EINPresswire.com/ -- [PrismXR](#), a pioneer specialized in enhanced XR-centric user experience which is celebrated for its innovative product range is proud to unveil its latest creation: the [Quest 3S Charging Dock](#), set to hit the market in early January 2025.

The Quest 3S Charging Dock represents our vision of blending convenience, functionality, and design for the ultimate user satisfaction.”

Richard Wu

This cutting-edge product marks a new chapter in virtual reality (VR) technology, combining sleek design, advanced functionality, and user-centric features to offer an unparalleled charging experience.

Since its founding in 2022, PrismXR has been on a mission to “bridge the virtual with the reality for endless

explorations.” Headquartered in both Singapore and Los Angeles, CA the company is the brainchild of a group of forward-thinking engineers and XR enthusiasts committed to reshaping the way we interact with technology. Building on the resounding success of its predecessor, the Quest 3 Charging Dock, products well-received by consumers, the Quest 3S takes innovation and performance to new heights.

The Quest 3S Charging Dock is designed for users who demand efficiency, versatility, and simplicity. Its standout features include a magnetic charging system for seamless alignment, super-fast charging capabilities for both headsets and controllers, and a compact, nature-inspired design that doubles as a convenient storage solution. Built to accommodate a variety of VR setups, the dock supports multiple solutions, ensuring compatibility without compromising style or functionality.

Innovative Features for Seamless Charging

The Quest 3S Charging Dock is equipped with a suite of groundbreaking features:

* FlexiDock Charging Solution: A magnetic, adjustable vertical pin enables effortless charging without the need for precise alignment, making charging intuitive and stress-free.

- * USB-C Port Free Convenience: A dedicated USB-C port on the adapter allows connection to external devices without removing the dock connector, ensuring ease of use.
- * Super-Fast Charging: The dock fully charges the Quest 3S headset in about two hours and the controllers in six hours, providing rapid readiness for the next adventure.
- * Nest Bionic Charging Design: Inspired by nature, this compact and elegant design supports simultaneous charging and organized storage, perfectly suited for VR enthusiasts.
- * Comprehensive Safety Protections: Equipped with over-current, over-voltage, overheat, and overcharge protection, ensuring reliability and safety during every charge.
- * Stress-free Compatibility: Compatible with PrismXR Controller Grips. Broadly compatible with elite-type and halo-type straps, aftermarket facial covers, anti-leakage nose pads, and shell covers

At the helm of PrismXR is [Richard Wu](#), an accomplished product manager developing an array of cutting-edge AI-powered consumer hardware products. Richard, a graduate from USC, the home to multiple leading products in the intersection of technology and entertainment, has consistently demonstrated an ability to guide cross-functional teams through the product development lifecycle, bringing innovative ideas from concept to market. Under his guidance, PrismXR top rated vertical leader well received by thousands of users.

PrismXR's dedication to innovation shines through the Quest 3S Charging Dock, which reflects the company's domain expertise in introducing augmented user experience in XR through a series of innovative products.

As CEO Richard Wu explains:

"Our team is committed to providing VR users with tools that enhance their immersive experiences. The Quest 3S Charging Dock represents our vision of blending convenience, functionality, and design for the ultimate user satisfaction."

PrismXR's reputation for delivering high-quality has made it a favorite among VR enthusiasts and professionals alike. The Quest 3S Charging Dock is no exception, embodying the brand's dedication to merging form and function. From its overcharge and temperature protection systems to its thoughtfully designed LED indicators, every detail reflects the company's commitment to enhancing the user experience.

The company specializes in enhancing augmented user experiences in XR through a range of innovative products. To highlight these advancements, it is hosting a Media/KOC Free Product Trial Event. Interested media outlets can contact the company via email, X (formerly Twitter), Instagram, YouTube, or Discord.
