

BlockAI Joins NVIDIA Inception

BlockAI is proud to announce its acceptance into NVIDIA Inception, a program designed to nurture startups advancing industries through technological innovation.

NEW YORK CITY, NY, UNITED STATES,
December 12, 2024 /

EINPresswire.com/ -- BlockAI is proud to announce its acceptance into NVIDIA Inception, a program designed to nurture startups advancing industries through technological innovation.

BlockAI Joins NVIDIA Inception Program

At BlockAI, we are focused on democratizing access to AI tools by integrating blockchain technology with advanced AI capabilities, providing users with seamless access to services such as text generation, video summarization, and image creation. Our platform empowers both individuals and Smart Contracts to autonomously engage with AI functionalities in a transparent, decentralized ecosystem that emphasizes community-driven development.

Joining NVIDIA Inception will enable us to deploy more custom AI models and functionalities by leveraging NVIDIA's advanced GPU infrastructure and deep learning tools. With access to NVIDIA's training resources and technology assistance, BlockAI can accelerate the optimization of our AI models, improving the efficiency and responsiveness of our blockchain-based AI tools. The program's go-to-market support will enhance our reach, introducing our unique offerings to a broader audience. Furthermore, we expect this partnership to connect us with other startups and investors in the AI space, fostering opportunities for new collaborations and potential funding, which will be instrumental as we continue to advance the integration of AI and blockchain technologies.

Additionally, this program offers the opportunity to collaborate with industry-leading experts and other AI-focused organizations.

"As a company focused on Blockchain and AI, securing support from one of the leading players in AI technology, NVIDIA Inception, has been a priority. This program will enable us to scale our hardware capabilities, connect with venture capitalists, and expand the scope of our

development opportunities,”
– said Christophe Verdot, Co-Founder.

NVIDIA Inception supports startups through critical stages of product development, prototyping, and deployment. Each Inception member receives a tailored set of ongoing benefits, including credits for the NVIDIA Deep Learning Institute, preferred pricing on NVIDIA hardware and software, marketing support, connections to venture capitalists, and technical assistance, providing startups with essential tools for growth.
