The group says, "When it comes to auto and truck plant line workers asbestos exposure was a fact of life before the mid-1980s. In fact, brake pad and some other auto parts that contained asbestos were not pulled until the late 1980s. Over the years we have talked to numerous auto-truck plant workers who would use air hoses to blow asbestos off their work clothing. One of our

problems is mesothelioma and or lung cancer can take upwards of four or five decades to develop so by the time the former auto-truck plant worker gets diagnosed they have forgotten about how much exposure to asbestos they had on the job.

"If your loved one has just been diagnosed with mesothelioma or asbestos exposure lung cancer in Michigan and they are a former auto-truck plant worker please call the lawyers at Zamler Shiffman & Karfis at 866-714-6466.
