

Brand New Muscle Car Mustang RestoMod from MotorTrend's Hit TV Show

A restoration modification or RestoMod is a classic vehicle that looks like an original classic but drives and functions more like a modern, late model car.

TULSA, OK, UNITED STATES, December 6, 2024 /EINPresswire.com/ -- Brand New Muscle Car of Tulsa, Oklahoma has been building all-new, all-metal classic American cars and trucks from scratch with all new parts, original year title and VIN, and your choice of features, options and upgrades since the moment new classic body shells became available back in 2005. We've been in the auto restoration business since 1987. Brand New Muscle Car is "the Original Scratch Muscle Car Builder..." BNMC builds look old but

drive new especially when customers decide to take advantage of modern late model technology in their custom design and build specifications. These are the most popular brand new muscle cars and are referred to as "restoration modifications" or more commonly as "RestoMods" in the classic automotive world.

A restoration modification or RestoMod is a classic vehicle that has been restored or in this case resto-built to look like an original classic but drive and function more like a modern, late model car thanks to decades of improvements that can be incorporated into the build process and vehicle. The most popular RestoMod areas are engine, transmission, fuel injection, air conditioning, suspension, steering, shocks, brakes, power accessories, electronics, gauges, interior, seating, materials, and audio/video.

"Brand New Muscle Car has been building RestoMods since before the term was popular or common place. Our whole business is built around the idea of building yesterday's dream cars today, which has always implied making them better than they were back in the day. BNMC

builds look old but drive new. We've always said that. Our builds have always included modern and better drivetrains, suspensions, brakes, power, electronics and essential things like fuel injection and air conditioning. That's what people want, classic style with new car drivability. And every nut and bolt new. And they get to completely design it top to bottom. These are custom, one-off builds. No one in the world has a car like the ones we build for our customers. No one. That's what's cool about them. We love it." exclaimed David Miller, Founder of Brand New Muscle Car.

MotorTrend TV Logo

The RestoMod being built this season of Brand New Muscle Car's MotorTrend TV show is an all-new 1967 Ford Mustang fastback featuring a 750hp supercharged 427ci fuel injected Windsor engine, TREMEC 6-Speed manual transmission, IFS / independent front suspension and 4-LINK rear suspension, 9 inch rear end, 4-wheel DISC brakes, BNMC instruments, black deluxe interior, and a custom "scorched apple" candy paint job. The finished car was also featured at SEMA 2024 in the ION Classic booth #24691 of Central Hall from November 5th to 8th and at Gaudin Ford's annual Cruise In Car Show on Saturday November 9th in Las Vegas, Nevada.

“

Brand New Muscle Car has been building RestoMods since before the term was popular or common place. Our whole business is building yesterday's dream cars today, better than they were back in the day.”
