“

The U.S. cleaning products market was valued at \$1,957.9 million in 2020, and is projected reach \$2,898.5 million by 2030, registering a CAGR of 4.1% from 2021 to 2030"

Allied Market Research

WILMINGTON, DE, UNITED STATES, December 6, 2024 /EINPresswire.com/ -- According to the report published by Allied Market Research, the [U.S. cleaning products market](#) generated \$1.95 billion in 2020, and is anticipated to reach \$2.89 billion by 2030, manifesting a CAGR of 4.1% from 2021 to 2030. The report offers an in-depth analysis of the market size, emerging and current trends, future estimations, and key players.

Surge in the number of households in the U.S., acceptance of cleaning products, and quick emergence of modern

retail shops fuel the [U.S. cleaning products](#) market. On the other hand, availability of substitutes in the market hampers the market. On the contrary, rise in sales through online retails creates several market opportunities.

The report segments the U.S. cleaning products market on the basis of product type, distribution channel, and states.

Based on product type, the brooms segment contributed to the highest market share in 2020, attributing to more than two-fifths of the total market share, and is anticipated to dominate the market during the forecast period. On the other hand, the brushes segment is expected to manifest the fastest CAGR of 4.6% from 2021-2030.

Based on distribution channel, the big box retailers segment contributed to the highest market share in 2020, attributing to more than one-fourth of the total market share, and is anticipated to

lead during the forecast period. On the other hand, the dollar stores segment is expected to manifest the fastest CAGR of 4.5% from 2021-2030.
