Golf Course Equipment Global Market Report 2024 - Market Size, Trends, And Global Forecast 2024-2033

## How Has the Golf Course Equipment Market Grown?

“

The golf course equipment market size is expected to see strong growth in the next few years. It will grow to \$5.46 billion in 2028 at a compound annual growth rate (CAGR) of 5.1%”

*The Business Research  
Company*

The golf course equipment market size has grown robustly in recent years. It is set to grow from \$4.25 billion in 2023 to \$4.47 billion in 2024 at a compound annual growth rate CAGR of 5.0%. Growth during the historical period has been driven by a spike in the popularity of golf among women, the expansion of retail channels for golf equipment, an increase in golf tournaments and events, a rise in the adoption of golf simulators, and greater engagement within the golf community.

[What Does The Future Hold For The Golf Course Equipment Market?](#)

The golf course equipment market is expected to see substantial growth in the next few years. The market size is projected to expand to \$5.46 billion in 2028, growing at a compound annual growth rate CAGR of 5.1%. This growth in the forecast period can be linked to a surge in interest in golf as a sport, higher disposable incomes, growth in golf tourism, expansion of golf courses, and a rising demand for golf cart rentals. Major trends in the market include the introduction of advanced equipment technologies, increased investment in golf infrastructure, adoption of eco-friendly practices and equipment, advancements in turf management, and the development of

What Is The Main Driver Of The Golf Course Equipment Market?

The increasing popularity of golf is expected to propel the growth of the golf course equipment market. The rising profile of golf is due in part to broader accessibility, a growing interest among younger generations fostered through social media and entertainment, and the appeal of outdoor, socially distant recreation. Golf course equipment is necessary for maintaining the turf, landscape, and overall course conditions, ensuring a consistent, high-quality playing experience and effective course management. As evidence of golf's growing popularity, in April 2022, a report published by England Golf, a UK-based non-profit and charitable organization, stated that the number of golf club members at affiliated venues in England reached 737,021--an increase of 89,797 players or a growth rate of 13.9% compared to the February 2021 figure of 647,224. This escalating popularity of golf is set to drive the golf course equipment market forward.
