Citrus fiber, also known as citrus pulp or citrus peel fiber, is a natural dietary fiber derived from the waste byproducts of citrus fruit processing, primarily from the peels of oranges, lemons, and other citrus fruits. It is a valuable ingredient in the food industry due to its unique functional properties.

Citrus fiber is rich in soluble and insoluble fiber, offering numerous health benefits such as improved digestive health, reduced cholesterol levels, and blood sugar regulation. This fiber helps in smooth bowel movement.

There are numerous health benefits associated with consumption of citrus fibers that play an important factor to drive the global citrus fiber market growth. These fibers help to prevent certain diseases such as irritable bowel syndrome (IBS), heart disease, type 2 diabetes, high cholesterol levels, high blood sugar levels, and obesity.

Growth in use of citrus fibers in various industries such as bakery, sauces & seasonings, desserts, ice creams, beverages, flavorings, and coatings, exponentially propels the growth of the citrus fiber market across the globe. Disease preventing properties of citrus fibers is paving way for its increasing use in daily meals of health oriented consumers.

Citrus fibers are also used in pet foods. It has a high water holding capacity and emulsification capabilities, both of which are important in the production of high-quality pet food and treats including kibble, biscuits, and injection-molded bones and thus it also brings myriad Citrus Fiber Market Opportunities.
