Why is the Indoor Payment Kiosk Market Growing?

The rise of the retail industry is expected to fuel the growth of the indoor payment kiosk market going forward. The retail industry spans from large department stores and supermarkets to small specialty shops and online retailers. Indoor payment kiosks are increasingly used in retail to enhance the customer experience, streamline operations, and provide more efficient payment solutions. In January 2024, according to the National Association of Convenience Stores, a US-based trade association, the number of convenience stores operating in the United States at the beginning of 2024 reached 152,396, reflecting a 1.5% increase compared to 2023.
