“Static traction therapy provides patients with a gentle, effective solution to chronic back issues and spinal conditions,” says Dr. Daniel Watters, lead chiropractor at Advantage Chiropractic. “Our goal is to support every

patient’s journey to better health with innovative and personalized treatments.”

Static traction therapy offers significant benefits for individuals dealing with chronic back and neck pain, herniated discs, sciatica, and spinal compression. This non-invasive treatment gently stretches the spine, reducing pressure on discs and nerves to alleviate discomfort and improve mobility.

By enhancing spinal alignment and flexibility, static traction therapy supports the body's natural healing processes, helping patients recover more effectively from injuries or chronic conditions.
