

Cutter Stapler Market to Surpass US\$ 6.23 Billion, Growing at 6.2% CAGR by 2034

Rising Preference for Minimally-Invasive Procedures Set to Push Demand for Cutter Staplers: Fact.MR Market Analysis

ROCKVILLE, MD, UNITED STATES,
December 10, 2024 /

EINPresswire.com/ -- Increasing number of surgical procedures and popularity of minimally-invasive surgeries are all set to drive up the valuation of the global [cutter stapler market](#) from US\$ 3.43 billion in 2024 to US\$ 6.23 billion by 2034, says Fact.MR, a market research and competitive intelligence provider, in its latest updated industry report.

Cutter Stapler Market

According to Statista report 2022, there were around 294 million surgical procedure units worldwide. Growing number of sport-related injuries and spinal cord cases are further expected to generate profitable growth opportunities for cutter stapler providers. Obstetrics and gynecology are some of the major cases where the need for surgical staplers is gaining traction.

Presence of cutting-edge healthcare infrastructure and presence of key market players is driving the sales of cutter staplers in North America and Europe. Western countries are known as early adopters and in the acceptance of cutter staplers they are at forefront. Continuous technological advancements and increasing knowledge of advanced medical procedures and technologies among public is contributing to the sales of surgical staplers.

East Asia and South Asia & Pacific are considered as fastest growing regions due to the increasing investments in healthcare by respective governments and advancements in regional medical sector.
