Technologies, a global leader in accounts payable risk management solutions, and Proservartner, a renowned business transformation consultancy, are thrilled to announce a groundbreaking partnership. This collaboration is set to empower organisations with state-of-the-art solutions that enhance financial resilience, optimise working capital, and streamline operations.

Uniting FISCAL’s cutting-edge, AI-driven forensic software with Proservartner’s expertise in process automation and operational transformation, this partnership addresses critical financial

challenges such as payment errors, supplier fraud, and inefficiencies within Procure-to-Pay (P2P) processes.

Together, they will deliver an unparalleled suite of tools and consultancy services designed to mitigate financial risks and unlock greater value for organisations.

“

Partnering with Proservartner enables us to provide finance teams with the tools they need to thrive, even when resources are stretched thin.”

David Griffiths, CEO, FISCAL Technologies

“We are excited to partner with FISCAL Technologies,” said Rakesh Sangani, CEO and Founder, Proservartner. “By combining our deep expertise in process transformation with FISCAL’s innovative technology, we can help organisations unlock significant operational efficiencies

while safeguarding their financial health.”

David Griffiths, CEO of FISCAL Technologies, shared his enthusiasm: “Protecting business spend in today’s complex economic landscape requires innovation and collaboration. Partnering with

Proservartner enables us to provide finance teams with the tools they need to thrive, even when resources are stretched thin. Together, we'll redefine how organisations combat financial risk, increase efficiency, and maximise their impact."

This dynamic alliance signifies a bold step forward in financial risk management, combining technology and transformation to create an unrivalled service offering. By leveraging their joint expertise, Proservartner and FISCAL Technologies aim to set new benchmarks for financial controls and operational excellence, empowering organisations across industries to build resilient and future-proof operations.
