

# Alicia Lyttle Leads Artificial Intelligence Workshop at William Paterson University Empowering Attendees with AI Skills

*Alicia Lyttle led an interactive AI workshop at William Paterson University, empowering attendees with hands-on skills for leveraging AI tools.*

WAYNE, NJ, UNITED STATES, December 11, 2024 /EINPresswire.com/ -- On December 3, 2024, [Alicia Lyttle](#), co-founder and CEO of [AI InnoVision](#), led an interactive and engaging 2.5-hour AI workshop at the AI Explored Workshop, hosted by the Cotsakos College of Business at William Paterson University. The event drew a packed room filled with students, faculty, staff, alumni, and small business professionals affiliated with the New Jersey Small Business Development Centers.

Alicia Lyttle teaching participants at William Patterson University, the power of Artificial Intelligence.

“

AI is not just the future—it’s the now. Helping participants embrace this technology is truly fulfilling.”

*Alicia Lyttle*

This hands-on session focused on demystifying artificial intelligence (AI) while equipping participants with practical tools and insights to enhance their business and professional endeavors. The workshop covered various topics, including creating AI-generated images, understanding machine learning, using ChatGPT effectively, and developing professional presentations using AI-powered presentation tools.

“The energy in the room was incredible. It was so rewarding to see participants actively engaging, asking insightful questions, and creating their own AI projects,” said Alicia Lyttle. “Workshops like this demonstrate the transformative potential of AI when institutions like William Paterson University prioritize education and innovation for their community.”

## An Interactive Experience

The workshop was designed to foster a collaborative and interactive environment. Participants

explored real-world AI applications and engaged in activities that brought AI concepts to life. From generating creative visuals to understanding machine learning principles, attendees gained practical insights into integrating AI into their professional and academic journeys.

The event provided attendees with an opportunity to experience firsthand how AI can transform workflows, improve efficiency, and spark innovation. Lyttle's engaging teaching style ensured that complex topics were accessible and applicable, leaving attendees inspired to leverage AI in their fields.

### Empowering the William Paterson University Community

The AI Explored Workshop was tailored to meet the AI development needs of the William Paterson University community. It emphasized the importance of preparing students, faculty, and small business professionals for a tech-driven future. The workshop equipped attendees with skills to stay competitive in an increasingly digital world by offering tools and strategies for utilizing AI.

"It's inspiring to work with an institution so committed to equipping its community with the skills needed for success in today's tech-driven economy," Lyttle added. "AI is not just the future—it's the now. Helping participants embrace this technology is truly fulfilling."

### About Alicia Lyttle
