

# American Fidelity Named One of the Best Places to Work in IT for the 21st Time

*American Fidelity (AF) was named a Foundry's Computerworld 2025 Best Places to Work in IT for the 21st time.*

OKLAHOMA CITY, OK, UNITED STATES,  
December 11, 2024 /

[EINPresswire.com/](https://EINPresswire.com/) -- [American Fidelity](#) (AF) was named a Foundry's Computerworld 2025 Best Places to Work in IT. Landing at no. 21 among mid-sized companies, this is AF's 21st appearance on the list.

One of the progressive programs for the group is the AF Teacher Fellowship. This program offers educators from across the state of Oklahoma the opportunity to obtain first-hand experience in a corporate IT setting and network with other teachers. The teachers can then share the skills and knowledge gained from the fellowship with their classrooms to help students prepare for technology-based careers.

Another positive aspect of work for the IT team at American Fidelity is the combination of meaningful work, an engaging culture and the ability to keep work and life in balance. Nearly 240 people work in the IT division at American Fidelity and enjoy competitive benefits, flexible schedules, a relaxed dress code and a collaborative environment. Several hybrid and remote positions are currently available including: [software developers, software engineers and data engineers](#).

"We are proud to be recognized as a best place to work in IT for the 21st time," said Reni Daniel, chief technology officer at American Fidelity. "This achievement is a testament to our talented team of Colleagues in IT who are dedicated to leading and creating an environment where all of us thrive. Their pursuit of excellence is the driving force to our strong culture and ability to deliver innovative solutions for our Customers and internal operations."

American Fidelity is proud to be recognized as a Foundry's Computerworld Best Place to Work in IT for the 21st Time!

The Computerworld Best Places to Work in IT award annually recognizes top work environments for technology professionals. The list is compiled based on a comprehensive questionnaire regarding company offerings in categories such as benefits; career development; diversity, equity and inclusion; future of work; training and retention. In addition, the rankings are reviewed and vetted by a panel of industry experts.

“This year’s focus on AI has created demand for new skills in AI, data analytics, and cloud. The good news: Leading companies recognize that these opportunities for business innovation also create new opportunities for internal IT talent,” says Barbara Call, global director of content strategy at Foundry. “Our winning companies are committed to keeping their tech workforce happy and engaged – which means going beyond raises, perks, and promotions to offer opportunities for upskilling and training on cutting-edge and emerging technologies.”
