

Kris Vilamaa of Mostly Medicaid Highlights Cybersecurity Strategies at i2i 2024 Conference

BIRMINGHAM, AL, UNITED STATES,
December 12, 2024 /
EINPresswire.com/ -- Kris Vilamaa of
Mostly Medicaid Highlights
Cybersecurity Strategies at i2i 2024
Conference
December 11-12

Overall summary of event

December 11-12, 2024
Benton Convention Center

Winston Salem, NC— Kris Vilamaa, Partner and Chief Growth Officer at Mostly Medicaid, delivered a compelling presentation this week at the i2i 2024 Conference, held at the Benton Convention Center in Winston Salem, NC. His session, titled "Safeguarding BH and ID Service Providers: Effective Vendor Contract Management for Cybersecurity," offered critical insights into managing IT vendor relationships to mitigate cybersecurity risks in the healthcare sector.

=====

Vilamaa addressed a vital and timely topic, focusing on the unique challenges faced by behavioral health (BH) and intellectual disability (ID) service providers. His presentation shed light on the potential vulnerabilities inherent in IT vendor partnerships and emphasized proactive measures to reduce risks. Attendees explored actionable strategies such as establishing transparent communication channels, setting clear expectations, and implementing robust risk management frameworks to secure their operations against emerging threats.

“Behavioral health and ID service providers are navigating a rapidly evolving cybersecurity landscape,” Vilamaa stated. “Effective vendor contract management is not just a procedural necessity—it’s a critical component of safeguarding sensitive patient data and maintaining operational integrity.”

Vilamaa’s session also featured real-world examples and best practices tailored to the healthcare sector. He underscored the importance of viewing IT vendors as integral components of an organization's broader cybersecurity strategy. By equipping service providers with practical tools and frameworks, Vilamaa empowered attendees to take control of vendor relationships, ensuring alignment with their security goals.

The i2i 2024 Conference, renowned for its focus on innovation and integration in healthcare, provided an ideal forum for Vilamaa to address this pressing issue. His expertise reinforced Mostly Medicaid’s commitment to supporting healthcare service providers as they navigate the complexities of cybersecurity and operational risk.

About Mostly Medicaid

=====

Mostly Medicaid reaches thousands of Medicaid industry professionals, decision makers and influencers with its thought leadership publications and information sharing products. We also provide marketing and strategy consulting services for companies in the Medicaid industry, as well as premium educational content to enhance expertise for industry professionals. Mostly Medicaid offers a unique value in the Medicaid industry by focusing on data-driven business perspectives rather than policy-only or advocacy-only positions.

We began with one simple concept in mind - think of Medicaid as a massive industry. Besides the healthcare services provided to Medicaid enrollees, there are hundreds of thousands of people that process claims, build software, consult with hospitals - just to name a few segments. Those people need services and products to help them do their jobs, increase their revenues and improve their skills. And that's where Mostly Medicaid comes in. We are uniquely positioned to reach influencers across all

segments and provide them with actionable information and recommendations. We have built a brand with 12,000 Medicaid industry professionals who trust us to bring non-biased information to them.
