

# Apellix Launches US1 Power Wash Drone, Enhancing Industrial Cleaning Efficiency

*A Comprehensive Solution for Safer, More Efficient, and Cost-Effective Industrial Cleaning, Backed by Exceptional Customer Support and Training*

JACKSONVILLE, FL, UNITED STATES,  
December 13, 2024 /

EINPresswire.com/ -- Apellix, a leader in aerial robotics technology, has announced the launch of the Apellix US1 Power Wash Drone. This innovative drone is set to transform the cleaning of industrial and commercial structures, offering enhanced performance, safety, and comprehensive customer support.

Apellix US1 Power Wash System

Building on the success of the Apellix B1 Power Wash Drone, the US1 integrates cutting-edge technology to set a new standard in the industry. The drone's heavy-lift capability makes it ideal for high-pressure cleaning tasks in challenging environments, eliminating the need for hazardous manual labor and improving operational efficiency and cost-effectiveness. Its ability to cover large surface areas quickly reduces downtime and boosts productivity.

The US1 Power Wash Drone boasts several advanced features:

**New US Autopilot:** Enhanced navigation for precise and reliable operation.

**Updated Apellix Precision Flight Control:** Improved accuracy and stability during flight.

**Advanced Safety Features:** Front distance hold and side collision avoidance to prevent accidents.

**Improved Water Resistance:** Greater operational range in wet environments and protection from indirect pressure washing fluids.

Robert Dahlstrom, CEO of Apellix, stated, "We're not just introducing a new drone; we're introducing a complete solution that supports our clients every step. From providing the latest

technology to offering ongoing support and training, the US1 makes industrial and commercial cleaning safer, more efficient, and cost-effective. Our commitment to exceptional customer service and satisfaction is at the core of everything we do, and we're excited to offer a product that truly makes a difference."

Each purchase of the US1 or B1 Power Wash Drone includes a comprehensive package with all necessary equipment, such as multiple batteries and high-pressure components. Additionally, Apellix offers a one-year manufacturer parts and service warranty and a success plan tailored to each team's specific needs, including product orientation at a location or job site of their choice.

Apellix is dedicated to ensuring long-term client satisfaction by providing ongoing technical support, expert training, and exceptional service. This commitment helps businesses maximize the value of their drone investments and seamlessly integrate drone-powered cleaning into their operations.
