

# Funs.AI: The World's First Crypto-Compliant SocialFi Platform

*Funs.AI is the world's first crypto-compliant social platform combining AI and blockchain technology and developed by Silicon Valley startup Knowpia Inc.*

FREMONT, CA, UNITED STATES, December 13, 2024 /EINPresswire.com/ -- [Funs.AI](#) is the world's first crypto-compliant social platform developed by Silicon Valley startup Knowpia Inc. By combining artificial intelligence (AI) and blockchain technology, Funs.AI aims to redefine the social experience, offering a comprehensive ecosystem that integrates social economics, digital asset trading, and e-commerce functionality.

## Core Features of Funs.AI Beta Version

### 1. Content Creation and Sharing

Users can create and share content in various formats (text, images, videos, etc.) and engage in creative interactions with others.

### 2. User Interaction

Users can follow one another, like, comment, and share posts, building deep social connections.

### 3. Digital Asset Wallet

The platform's built-in crypto wallet allows users to manage their KNOWP tokens and other digital assets, making transactions, storing, and sending tokens secure and easy.

### 4. Incentive System

Users' social interactions are converted into platform points, which are exchanged for KNOWP tokens daily, directly empowering social participants' economic benefits.

### 5. Tipping Feature

With KNOWP tokens, users can tip posts or creators, providing direct support for content creators.

### 6. Image Interaction Tools

The platform offers diverse image interaction tools, including features like face-swapping and cameo-style features, adding innovative ways to engage with content.

## 7. Sticker Marketplace

Users can buy, sell, or trade stickers within the platform, enhancing social interaction with personalized emotional expressions. Creators can earn KNOWP tokens by designing and selling stickers.

## Funs.AI's Key Advantages

### 1. Security and Compliance

The platform strictly follows a compliance strategy, issuing STO tokens according to SEC regulations and actively responding to the latest regulatory requirements (such as the FIT21 Act) to protect investors. KNOWP token holders are also company preferred shareholders, enjoying dividend earnings.

### 2. Efficient Blockchain Technology

Built on the BASE blockchain, the platform provides fast transaction processing and low gas fees, significantly enhancing the user experience.

### 3. Rich AI Creation Tools

Funs.AI includes a variety of AI tools that lower the barriers to content creation, enabling users to easily generate high-quality content.

### 4. Smart Social Relationship Recommendations

Using machine learning, the platform recommends potential friends and communities based on users' interests, helping establish deeper social connections.

### 5. Content Moderation and Fraud Detection

AI technology is used to proactively filter out harmful content, ensuring user authenticity and platform security.

### 6. Attracting Web 2.0 Huge Volume Users

Using Web2 user access mechanisms, Funs.AI seamlessly integrates with the Web3 world, attracting large numbers of traditional internet users. This enables easy access to the new opportunities blockchain offers, rapidly expanding the user base and driving the platform's sustainable growth.

## Future Plans

Funs.AI plans to officially launch its Beta version in Q1 2025, offering users worldwide a fresh SocialFi experience. The platform will gradually expand with more features and professional services, including instant messaging, communities, advertising, and e-commerce, aiming to build a more comprehensive social ecosystem. This will lay a solid foundation for the 2025 end-of-year listing on compliant exchanges.

## Join Funs.AI and Embrace the New Social Era

Funs.AI is not just a social platform, but a new bridge connecting social interactions with financial

opportunities. From content creation to economic incentives, Funs.AI provides endless possibilities for users. Join us now to explore the future of the SocialFi space, which is set to become the largest and most high-growth segment in the blockchain industry!
