“The holiday season is the perfect time to embrace the spirit of giving, not just to one another but also to our environment. Together, we can create lasting traditions that support a healthier future.”

From energy-efficient decorations to waste-free gift-giving and sustainable celebrations, K3 Holdings and Alpine LA Properties are providing actionable tips to inspire environmentally conscious holiday habits. These tips include:

Energy-Efficient Decorations:

- Switch to LED Lights: LED string lights consume up to 80% less energy than traditional incandescent bulbs, offering a long-lasting, cost-effective option.

- Use Timers: Timers ensure lights are only on when needed, reducing energy waste and extending the lifespan of decorations.

Waste-Free Gift Giving:

- Opt for Experiences: Gift event tickets, classes, or memberships to minimize material waste while creating lasting memories.

- Sustainable Wrapping: Use reusable fabric wraps, scarves, or recycled paper with natural embellishments like evergreen sprigs or cinnamon sticks.

Sustainable Celebrations:

- Plan a Potluck: Coordinate dishes with guests to reduce food waste and ensure portions are appropriately sized.

- Reusable Tableware: Replace single-use plastics with real plates, cutlery, and glasses, or opt for compostable alternatives when reusable options aren't available.

“Sustainability is at the heart of everything we do,” said Nathan Kadisha, Principal at K3 Holdings. “By adopting these simple yet impactful practices, we can transform the holiday season into a celebration that’s not only joyful but also environmentally responsible. It’s about creating a legacy of care for our planet and the generations to come.”
