Refrigerated snacks can be defined as those forms of snacks which requires refrigeration in order to keep its quality unharmed and to expand their shelf life. Refrigerated snacks are manufactured and kept under a certain temperature conditions in order to preserve its overall authenticity and provide convenience in food consumption to the final consumers.

Expansion of sales channel is the major factor which will contribute in the refrigerated snacks market growth of the refrigerated snacks industry in the near future, and online retail platform is the one among them and is also the fastest growing segment. Presently, many retail players are managing their own web-based retail stores where customers can learn more about the organization and its products.

The availability of multiple options of product and their price comparison on online platforms is also resulting in an increase in the number of online shopping by the consumers. This is beneficial to the key players as it is eliminating the need for any physical outlets or stores and is also helping the customers to read reviews provided by other users, and compare various stores, products as well as the price by different sellers for the particular refrigerated snacks

purchased.

Furthermore, as per the data of World Bank, of the year 2019, North American region is the leader with approximately 88.4% of the population are internet users, followed by Europe and Central Asia, accounting for around 83.9% of the population as internet users. Some of the popular online retailers in the refrigerated snacks market are Amazon.com, and Flipkart.com among others.

Furthermore, besides only sales channel the product availability is rising even in the convenient stores and local shops in small regions which is augmenting the market growth.
