

3G Home by Kelvin Bing Earns Iron A' Design Award in Architecture Category

Innovative Residential Design Recognized for Sustainability and Timeless Elegance

COMO, CO, ITALY, December 17, 2024 /EINPresswire.com/ -- The A' Design Award, a highly respected recognition in the field of [architecture](#) design, has announced [Kelvin Bing's](#) "3G Home" as a winner in the Architecture, Building and Structure Design category. This prestigious accolade highlights the significance of the 3G Home's innovative design within the architecture industry, celebrating its contribution to advancing design standards and practices.

The 3G Home's award-winning design showcases its relevance to current architectural trends, particularly in the realm of sustainable and multi-

generational living. By prioritizing the repurposing of existing structures, the project aligns with industry best practices in reducing waste, carbon emissions, and energy consumption. This environmentally conscious approach, coupled with the creation of a harmonious and tranquil living space, positions the 3G Home as a model for future residential designs.

Kelvin Bing's design stands out for its seamless blend of modern aesthetics and timeless charm. The pure white architectural façade not only exudes elegance but also serves a practical purpose in keeping the building cool in Singapore's hot climate. The interplay of light and shadow on this white canvas adds a dynamic visual element to the design. Inside, the thoughtful space planning transforms the house into a multi-generational home, catering to the evolving needs of modern families.

The Iron A' Design Award recognition for the 3G Home serves as a testament to Kelvin Bing's

3G Home

commitment to excellence and innovation in architecture. This accolade is expected to inspire the firm's future projects, driving them to continue pushing the boundaries of residential design while prioritizing sustainability and adaptability. As the industry evolves, the 3G Home stands as a benchmark for architects and designers seeking to create living spaces that harmoniously blend functionality, aesthetics, and environmental responsibility.

About Renaissance Planners and Designers

Renaissance Planners and Designers is a design company dedicated to sustainable design practices, crafting projects that transcend generations. With a deep understanding of material, form, and function, the team thoughtfully creates solutions that align with each client's unique vision. Their commitment to sustainability is evident in their approach, which prioritizes the repurposing of existing structures to minimize waste and environmental impact.

About A' Design Award

The Iron A' Design Award recognizes designs that meet rigorous professional and industrial standards set by the A' [Design Awards](#). Recipients of this award demonstrate a solid understanding of design principles, creativity in execution, and the ability to address real-world challenges through practical innovations. The Iron A' Design Award is bestowed upon designs that showcase technical competence, expertise, and creative capacity in the Architecture, Building and Structure Design category. Winning works are evaluated based on criteria such as innovative use of space, structural integrity, aesthetic appeal, environmental impact, functional efficiency, material selection, technological integration, social relevance, cultural sensitivity, economic viability, design originality, user comfort, energy efficiency, adaptability to change, use of natural light, spatial harmony, safety measures, accessibility considerations, resilience to weather, and integration with surroundings.

About A' Design Award and Competition

The A' Design Award is an international, juried design competition that has been recognizing and promoting superior architecture, building, and structure design since 2008. The competition welcomes a diverse range of participants, from renowned architects and engineering firms to leading construction companies and influential brands. Through a rigorous blind peer-review process, entries are evaluated by an expert jury panel based on pre-established criteria, ensuring an impartial assessment of design excellence. By participating in this prestigious award, entrants gain global recognition for their innovative designs and contribute to advancing the field of architecture. The A' Design Award ultimately aims to create a better world by showcasing and celebrating designs that positively impact society.
