Protein Hydrolysates Market

TOKYO, JAPAN, December 19, 2024

/EINPresswire.com/ --

The global protein hydrolysates market is projected to reach 116,470 units by 2032, growing at a CAGR of 7.5% from 2023. The market is driven by the increasing demand for high-quality protein supplements in sports nutrition, medical food, and infant formula. Key players in the market include Novozymes, Crescent Biotech, AMCO Proteins, Scanbio Marine Group AS, Bioiberica SAU, Kemin Industries Inc., Chaitanya Agro Biotech Pvt. Ltd., Copalis, Bio-marine Ingredients Ireland, Titan Biotech, ZXCHEM USA INC., and SUBONEYO Chemicals Pharmaceuticals P.

The market is segmented by application, including sports nutrition, medical food, and infant formula. The sports nutrition segment is the largest and is expected to continue its growth due to the rising awareness of protein's benefits for muscle recovery and performance. The medical food segment is also growing, driven by the need for easily digestible protein for individuals with specific health conditions. The infant formula segment is expected to remain stable, with demand primarily driven by the need for high-quality protein in baby food.

"The global protein hydrolysates market is projected to reach 116,470 units by 2032, growing at a CAGR of 7.5% from 2023. The market is driven by the increasing demand for high-quality protein supplements in sports nutrition, medical food, and infant formula."
